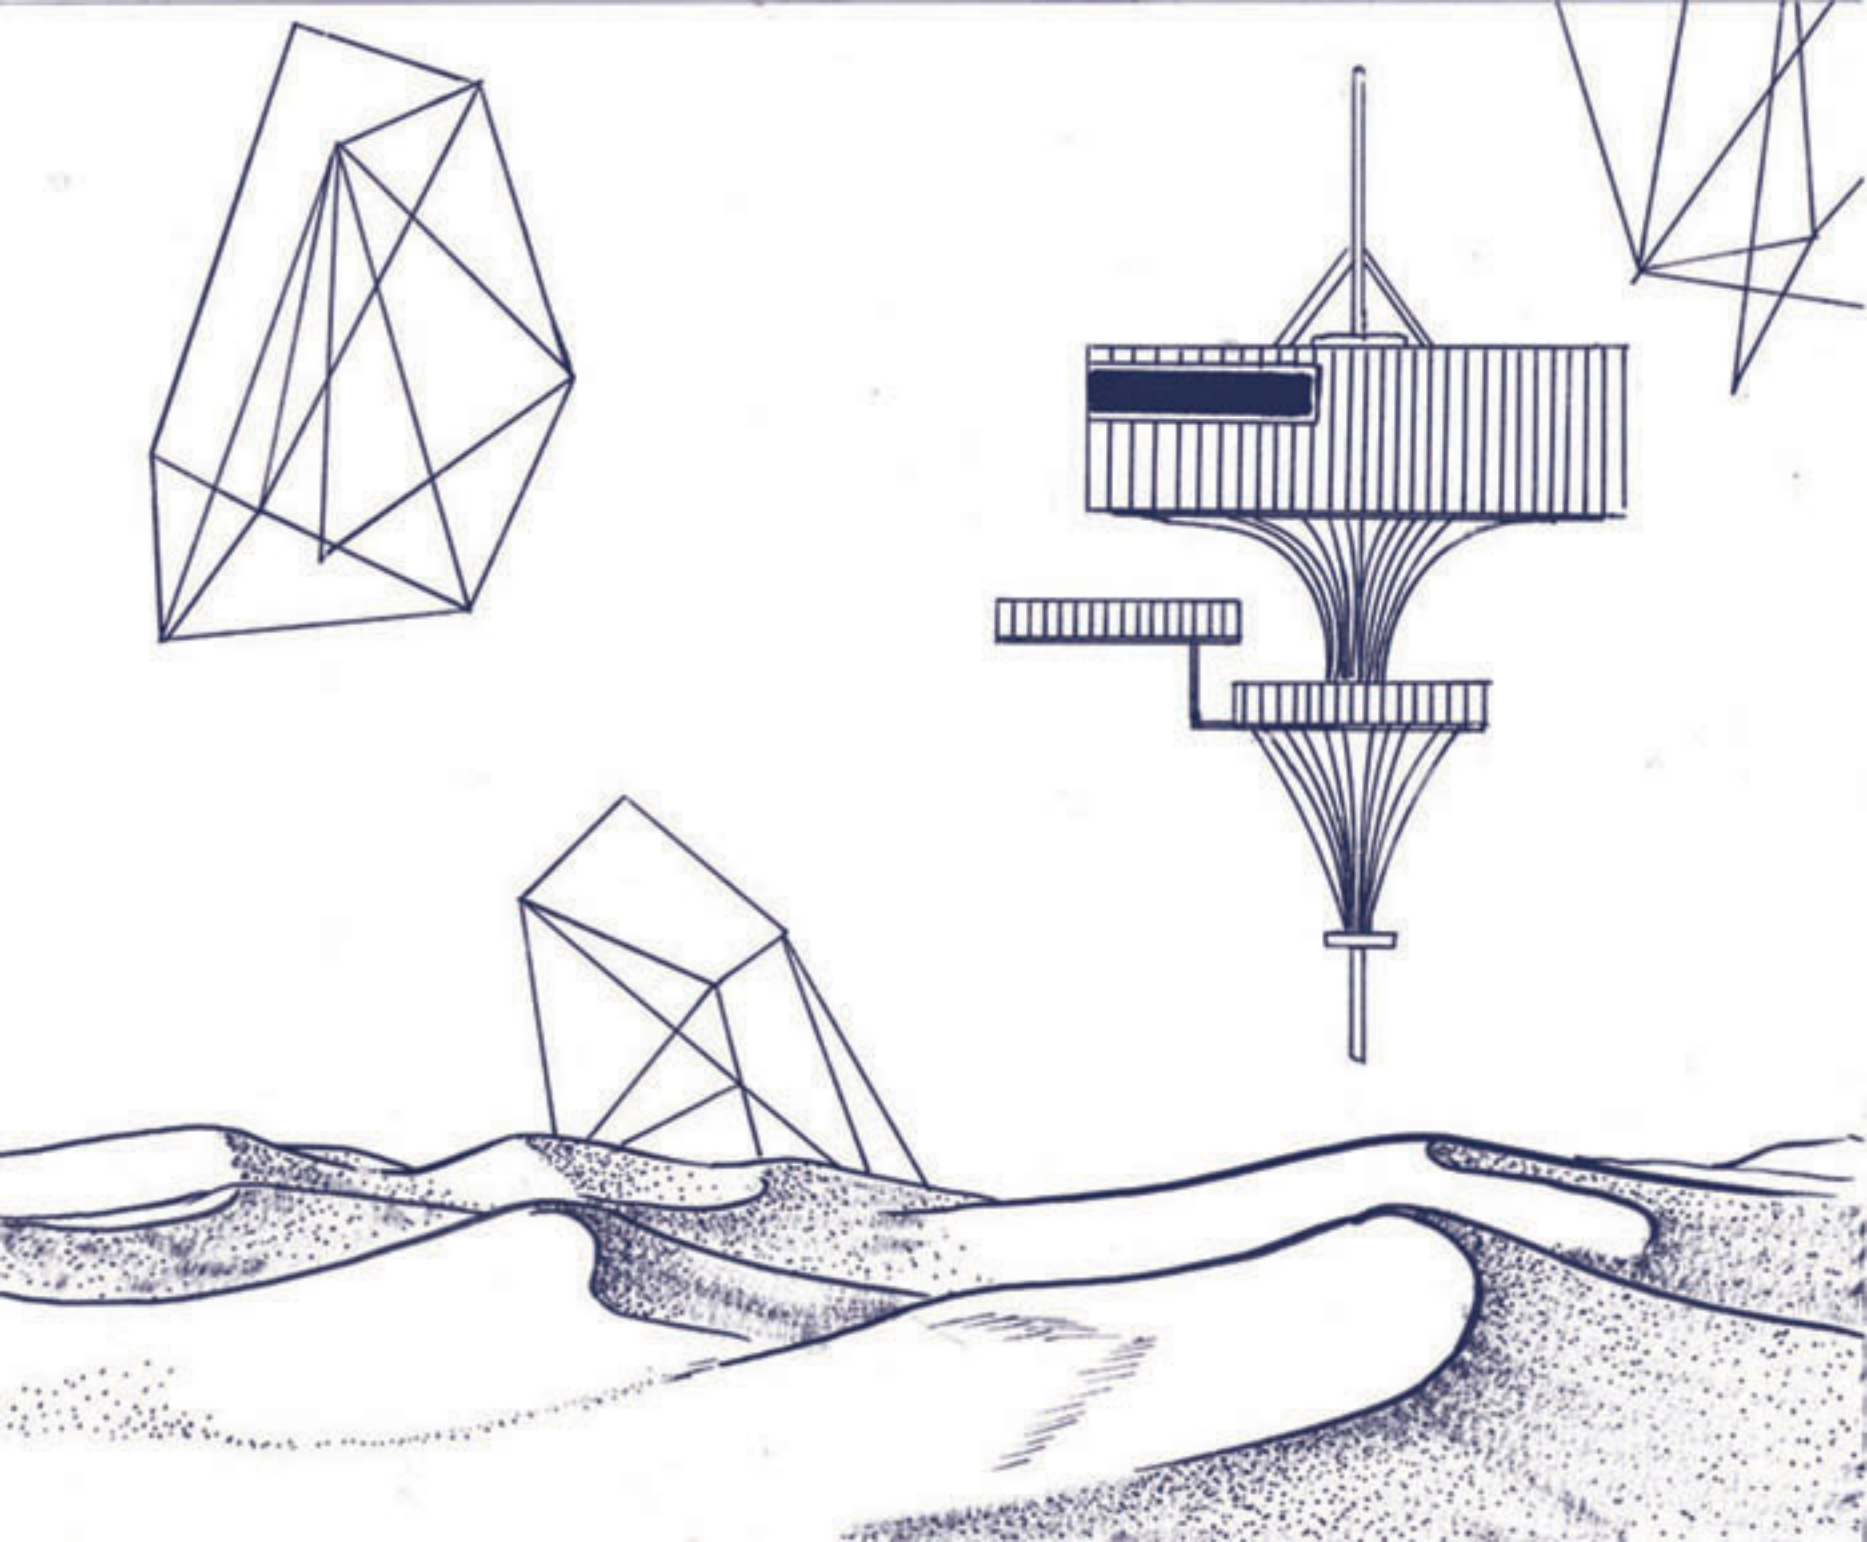
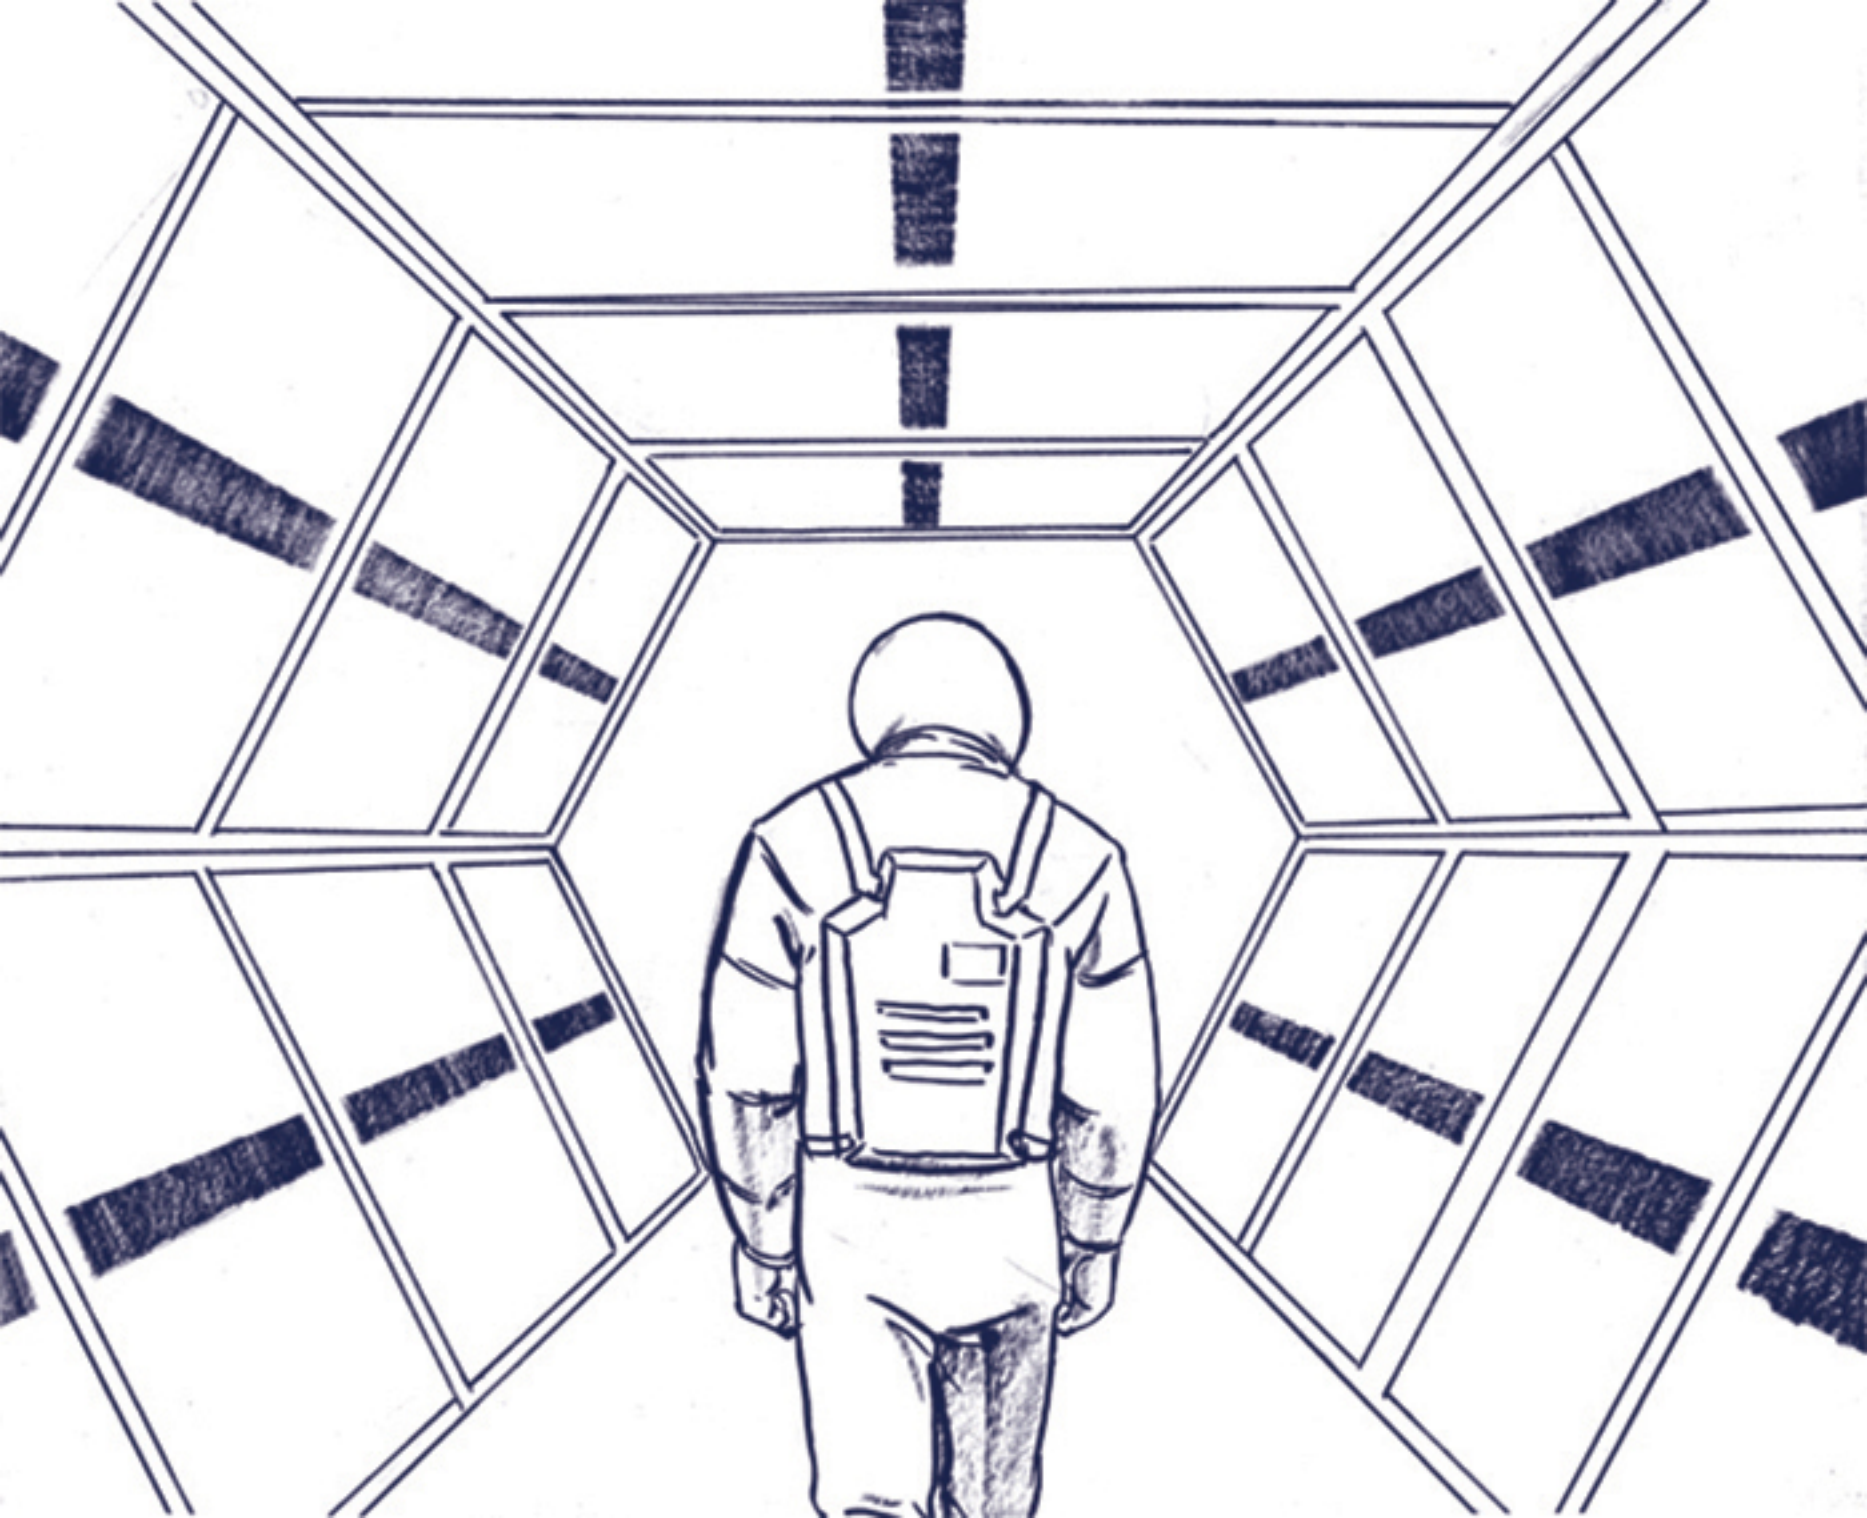
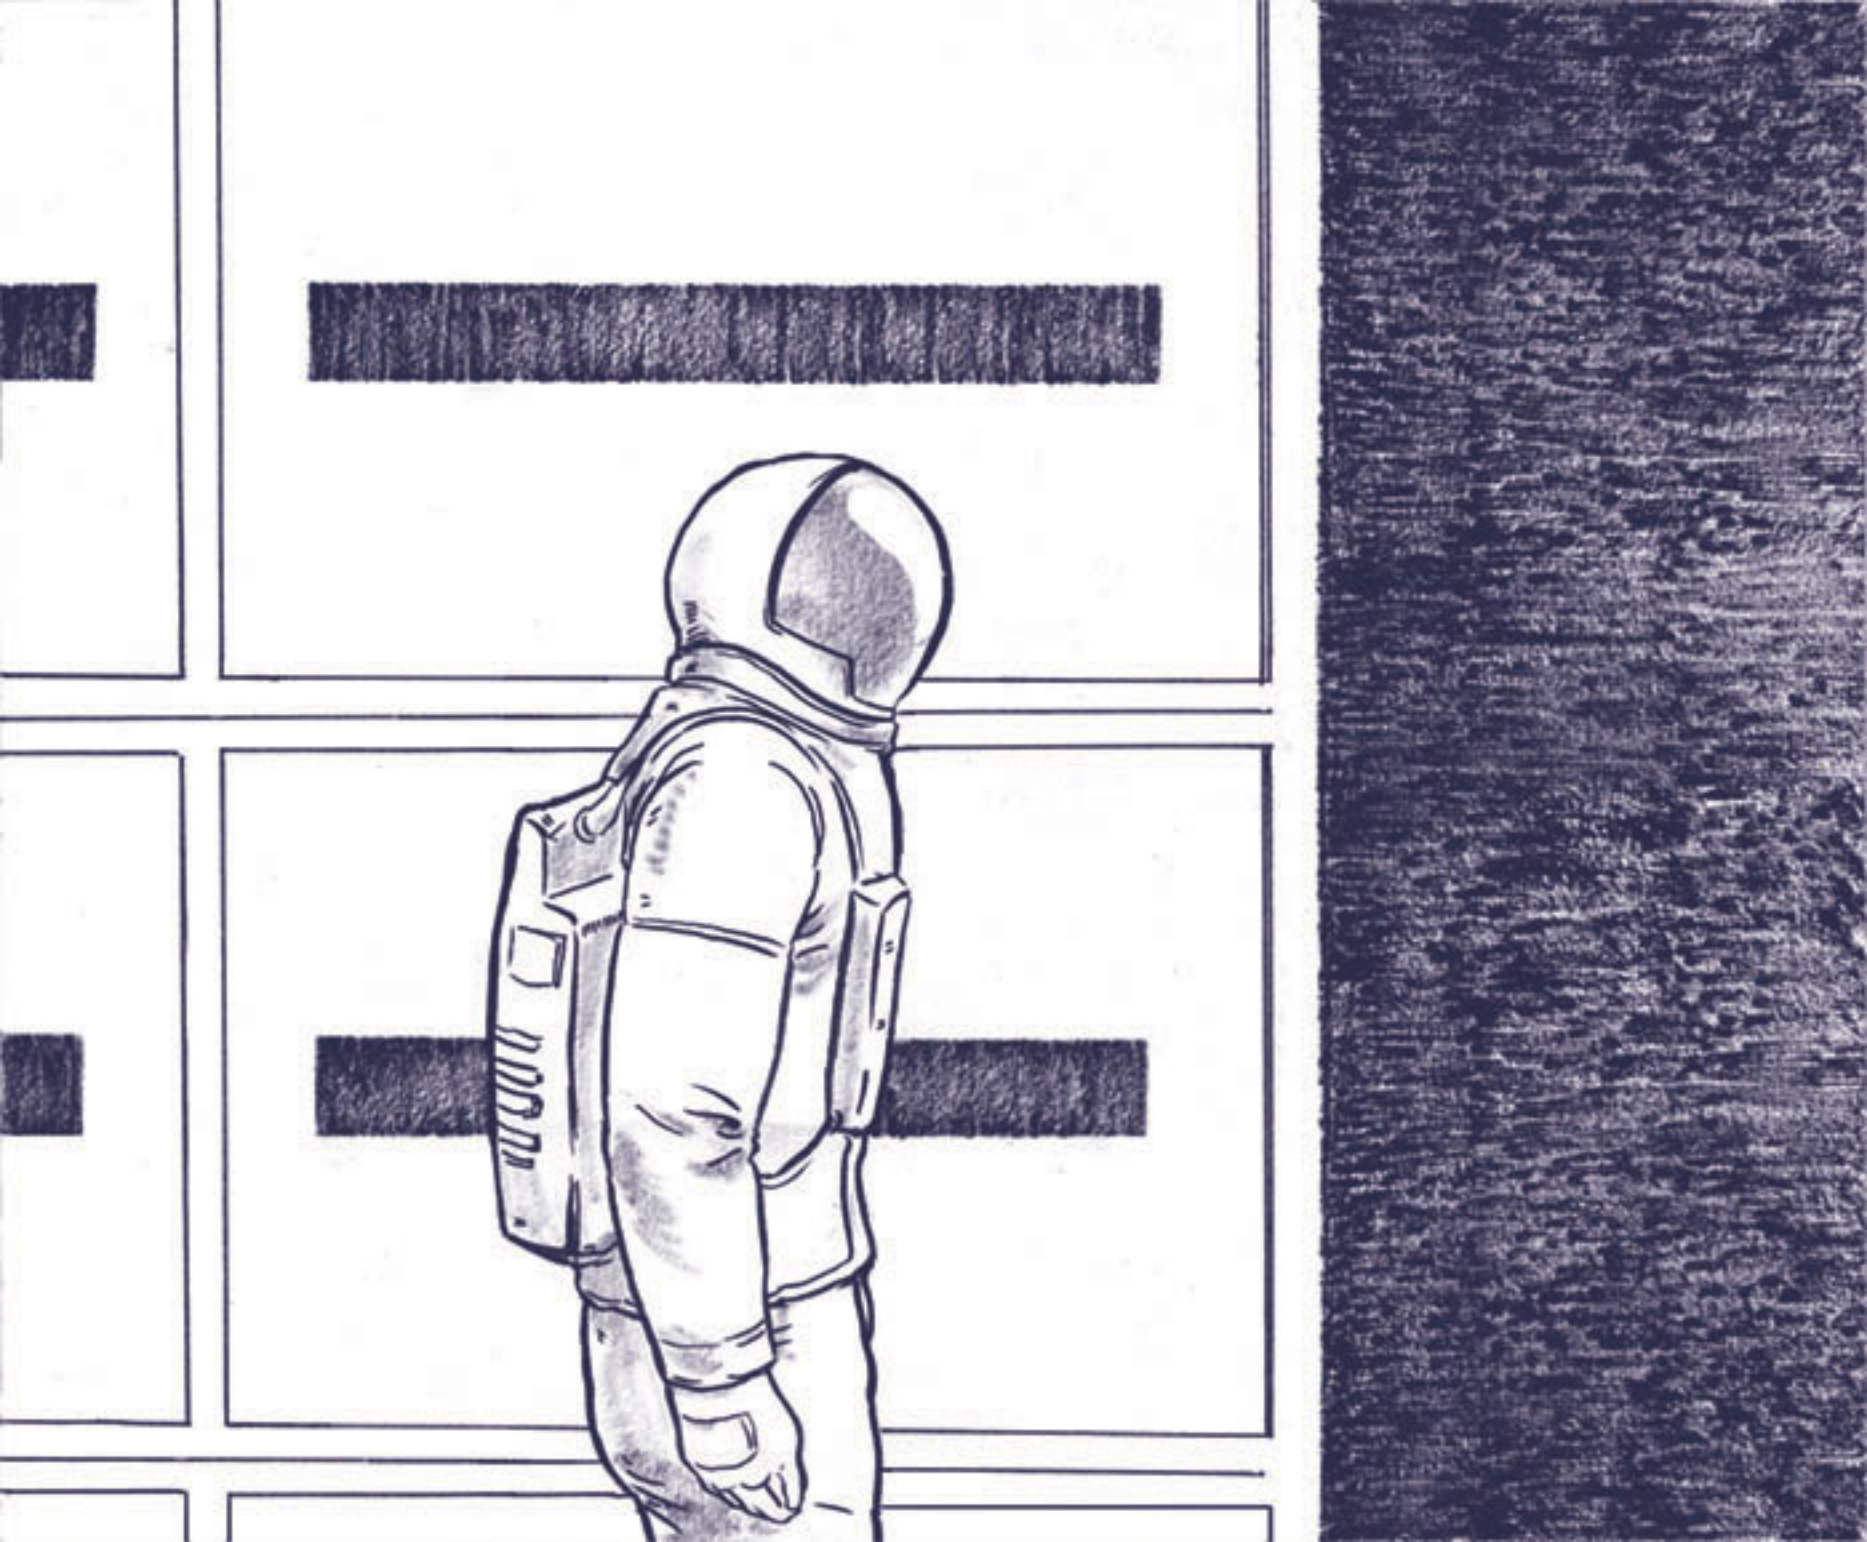
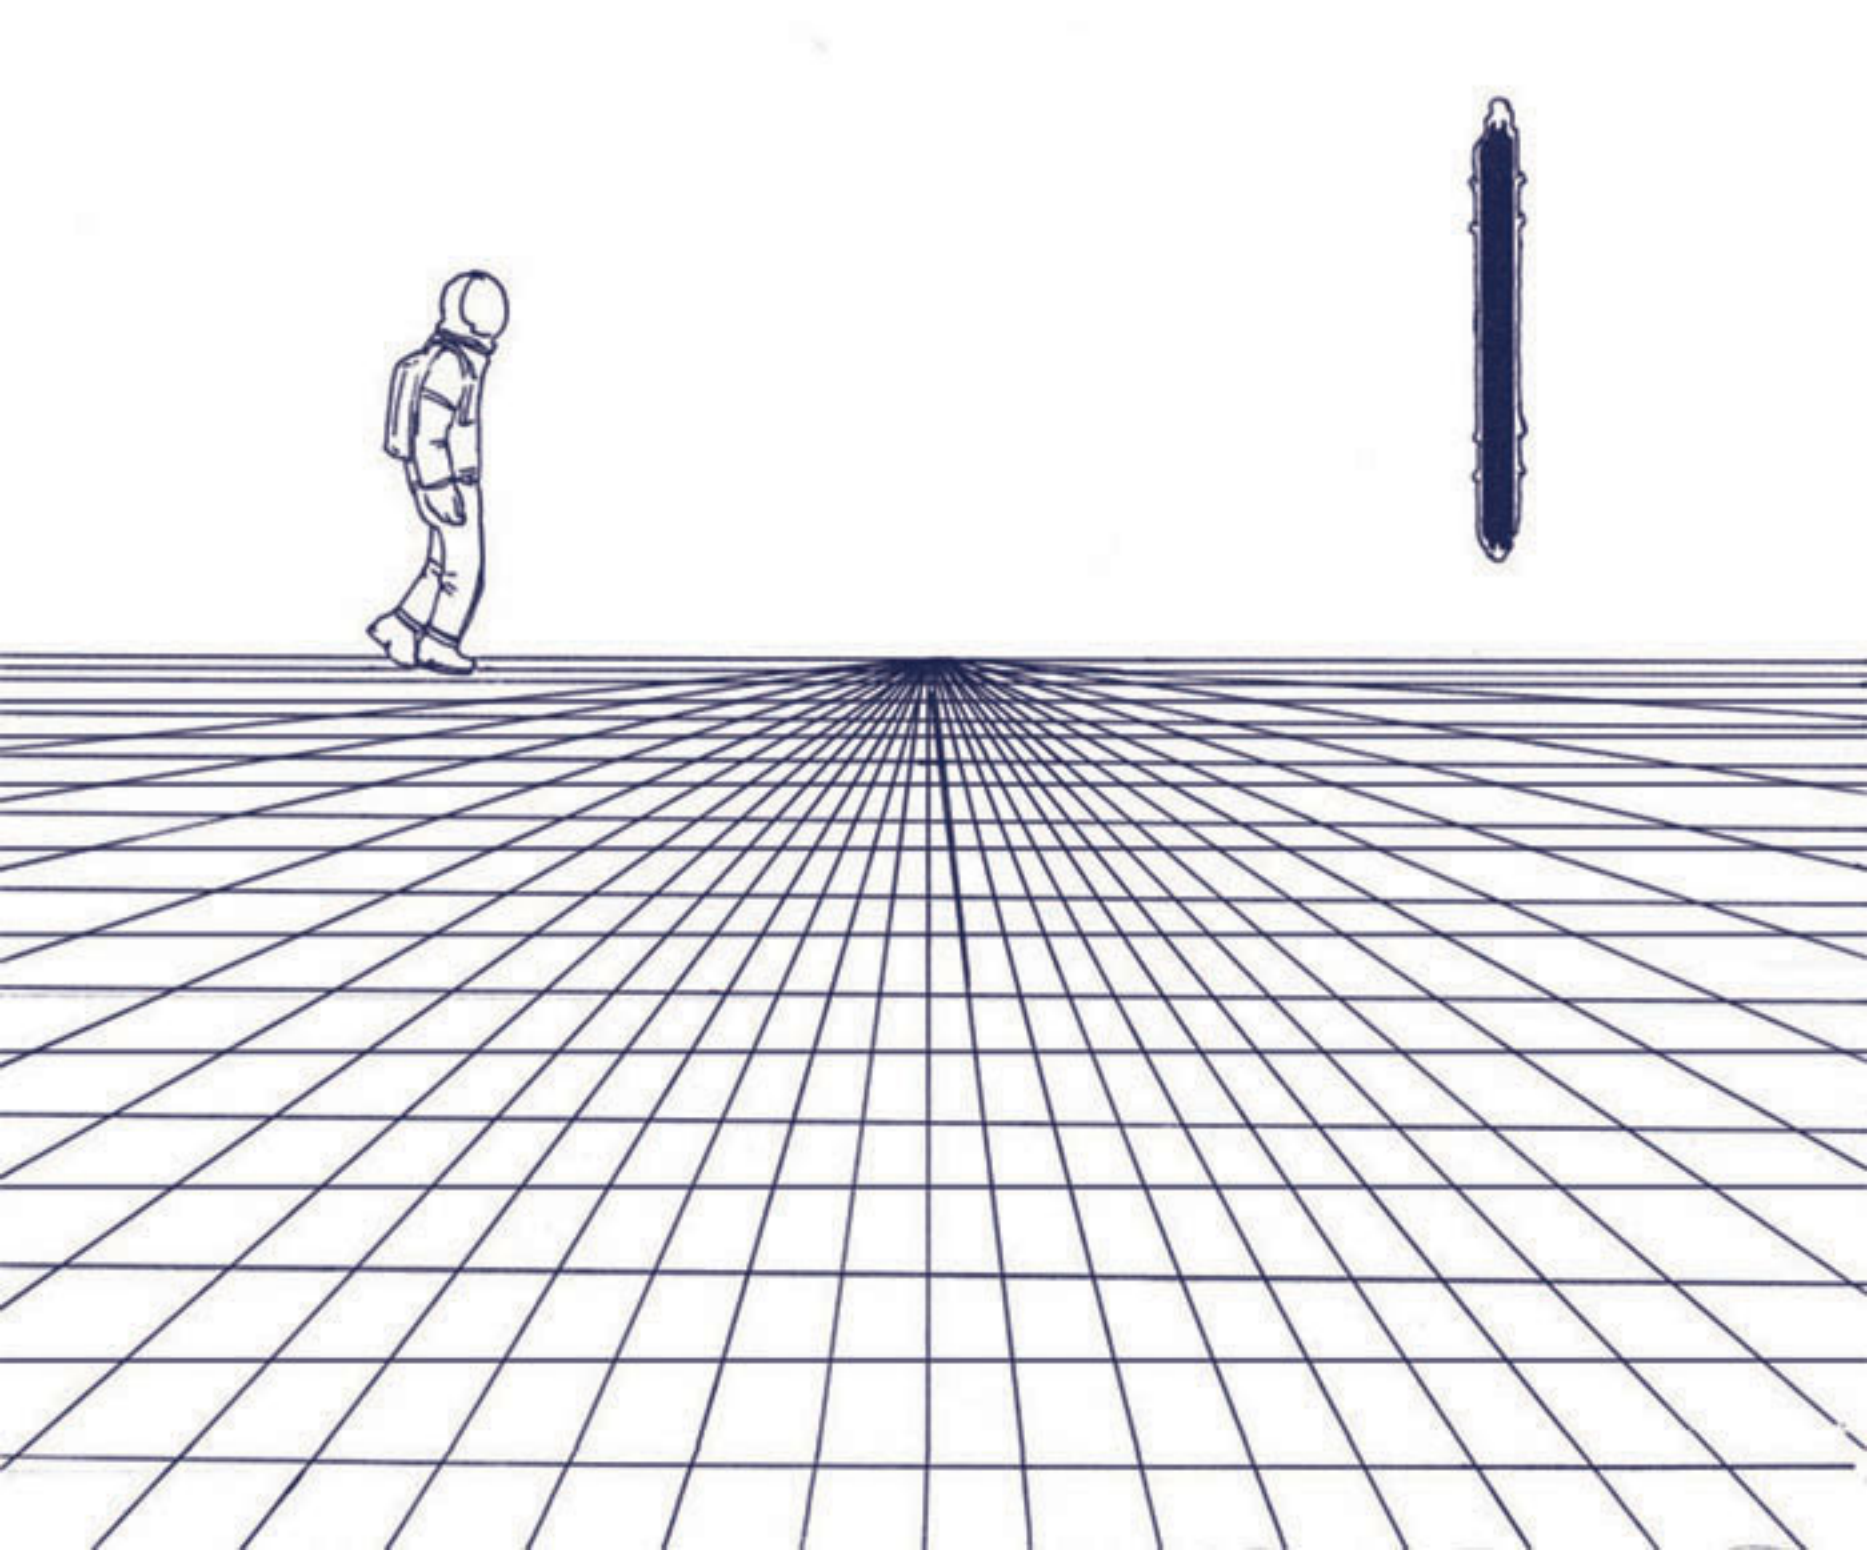
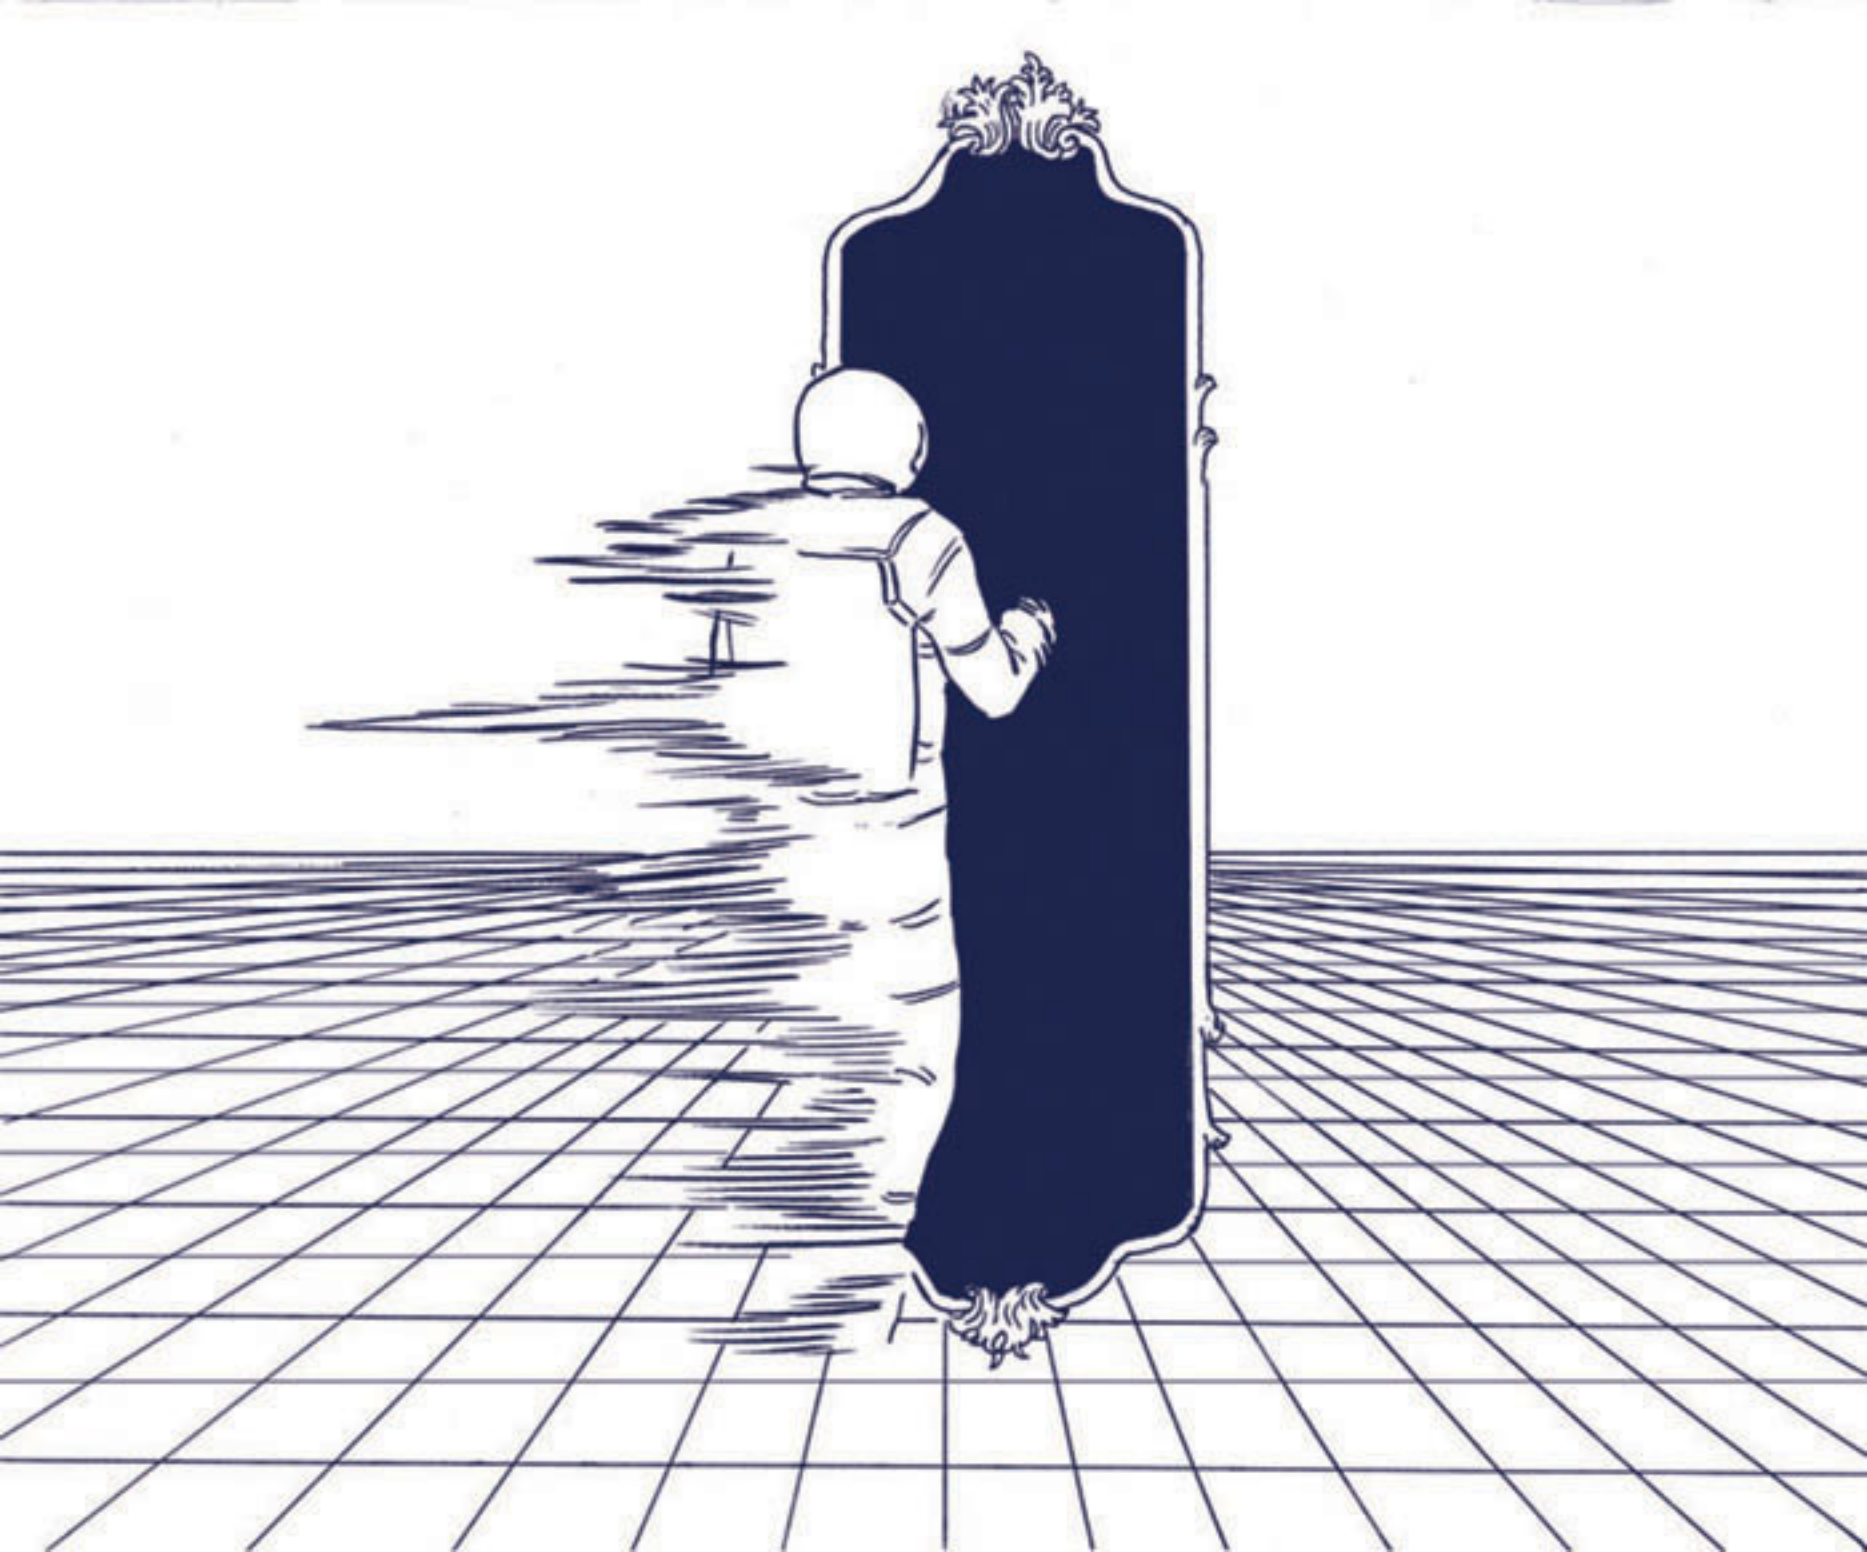
CQ



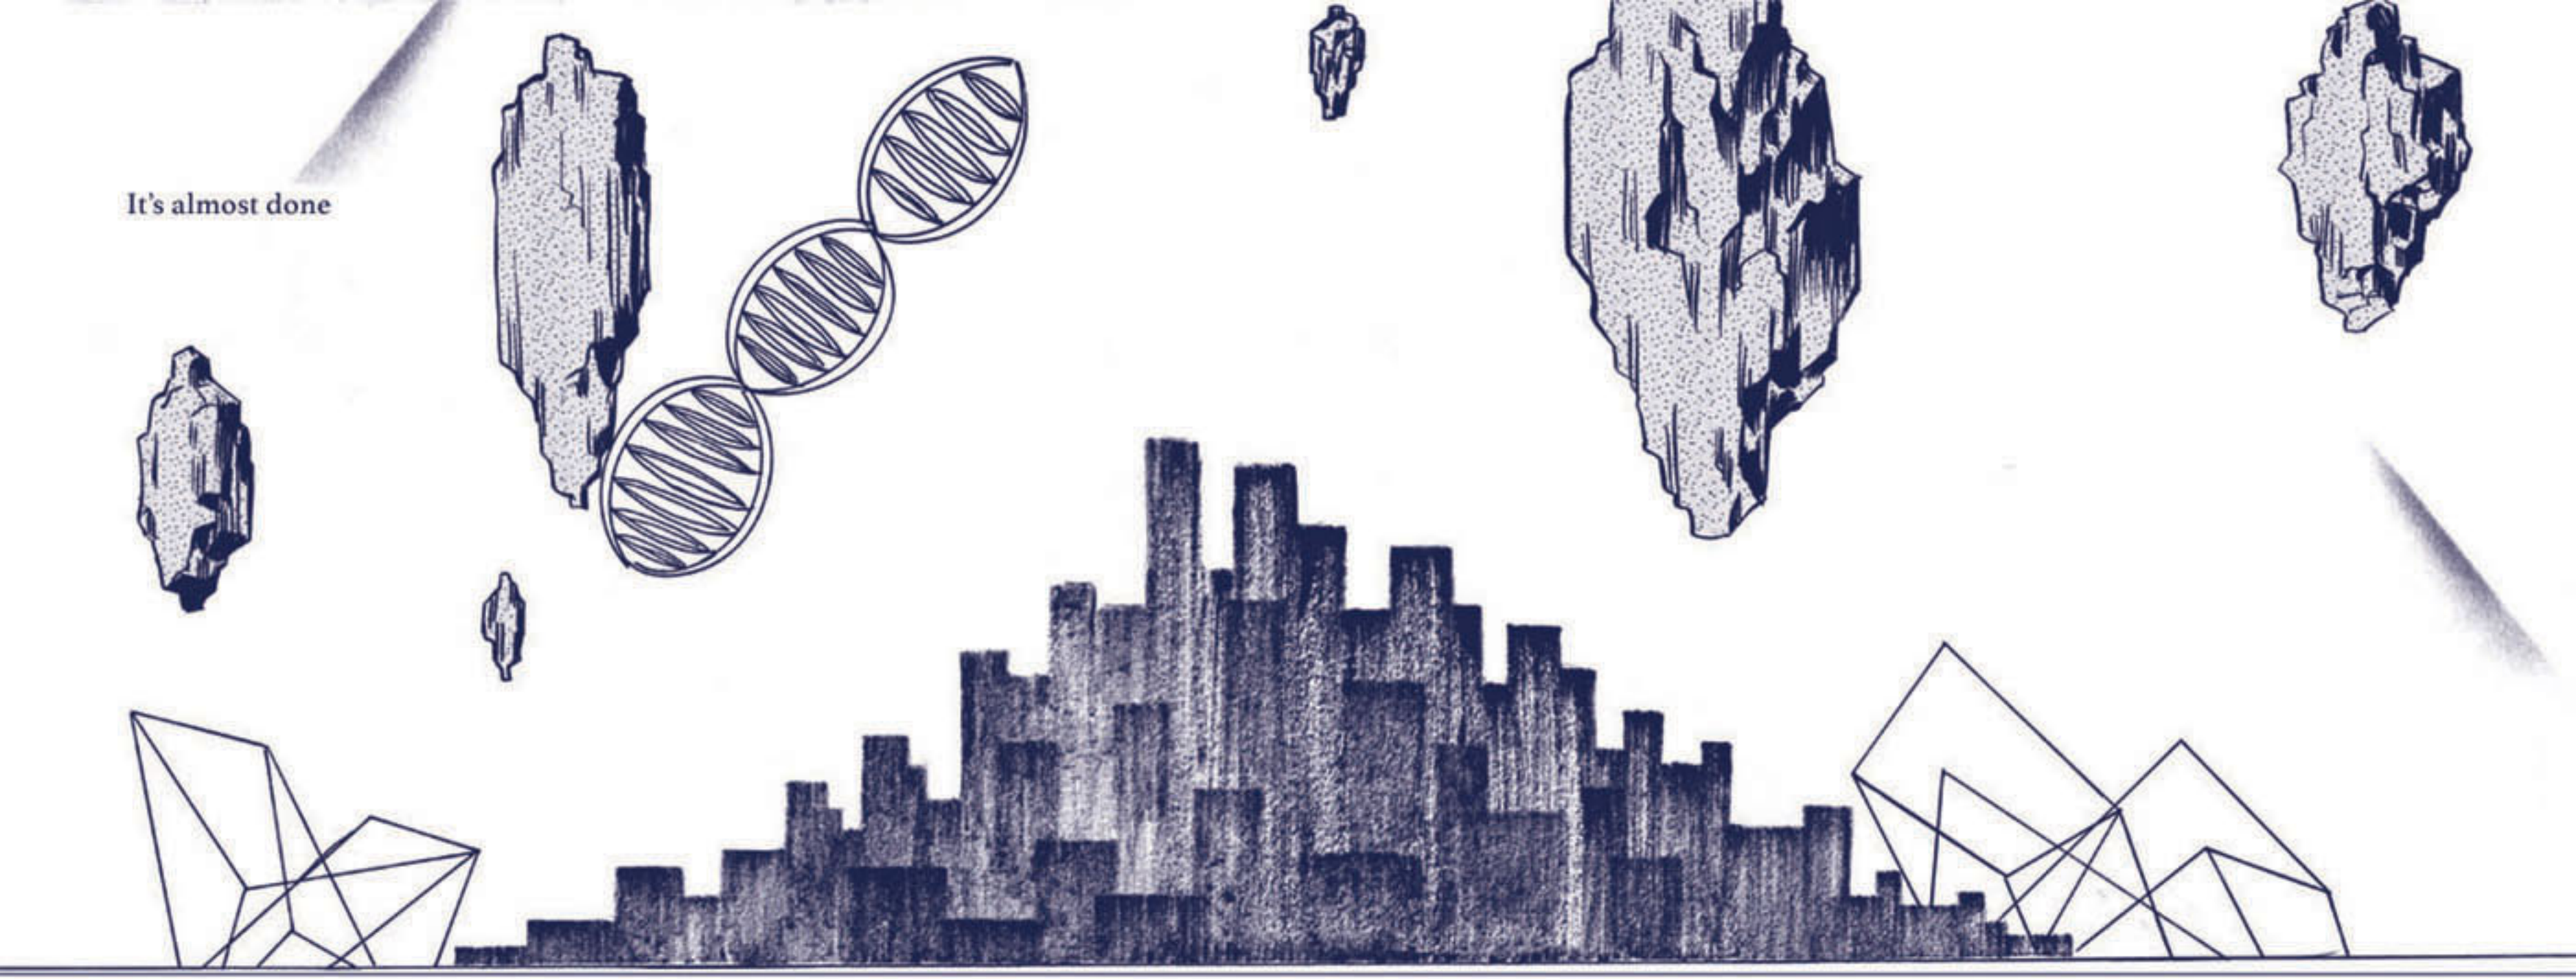


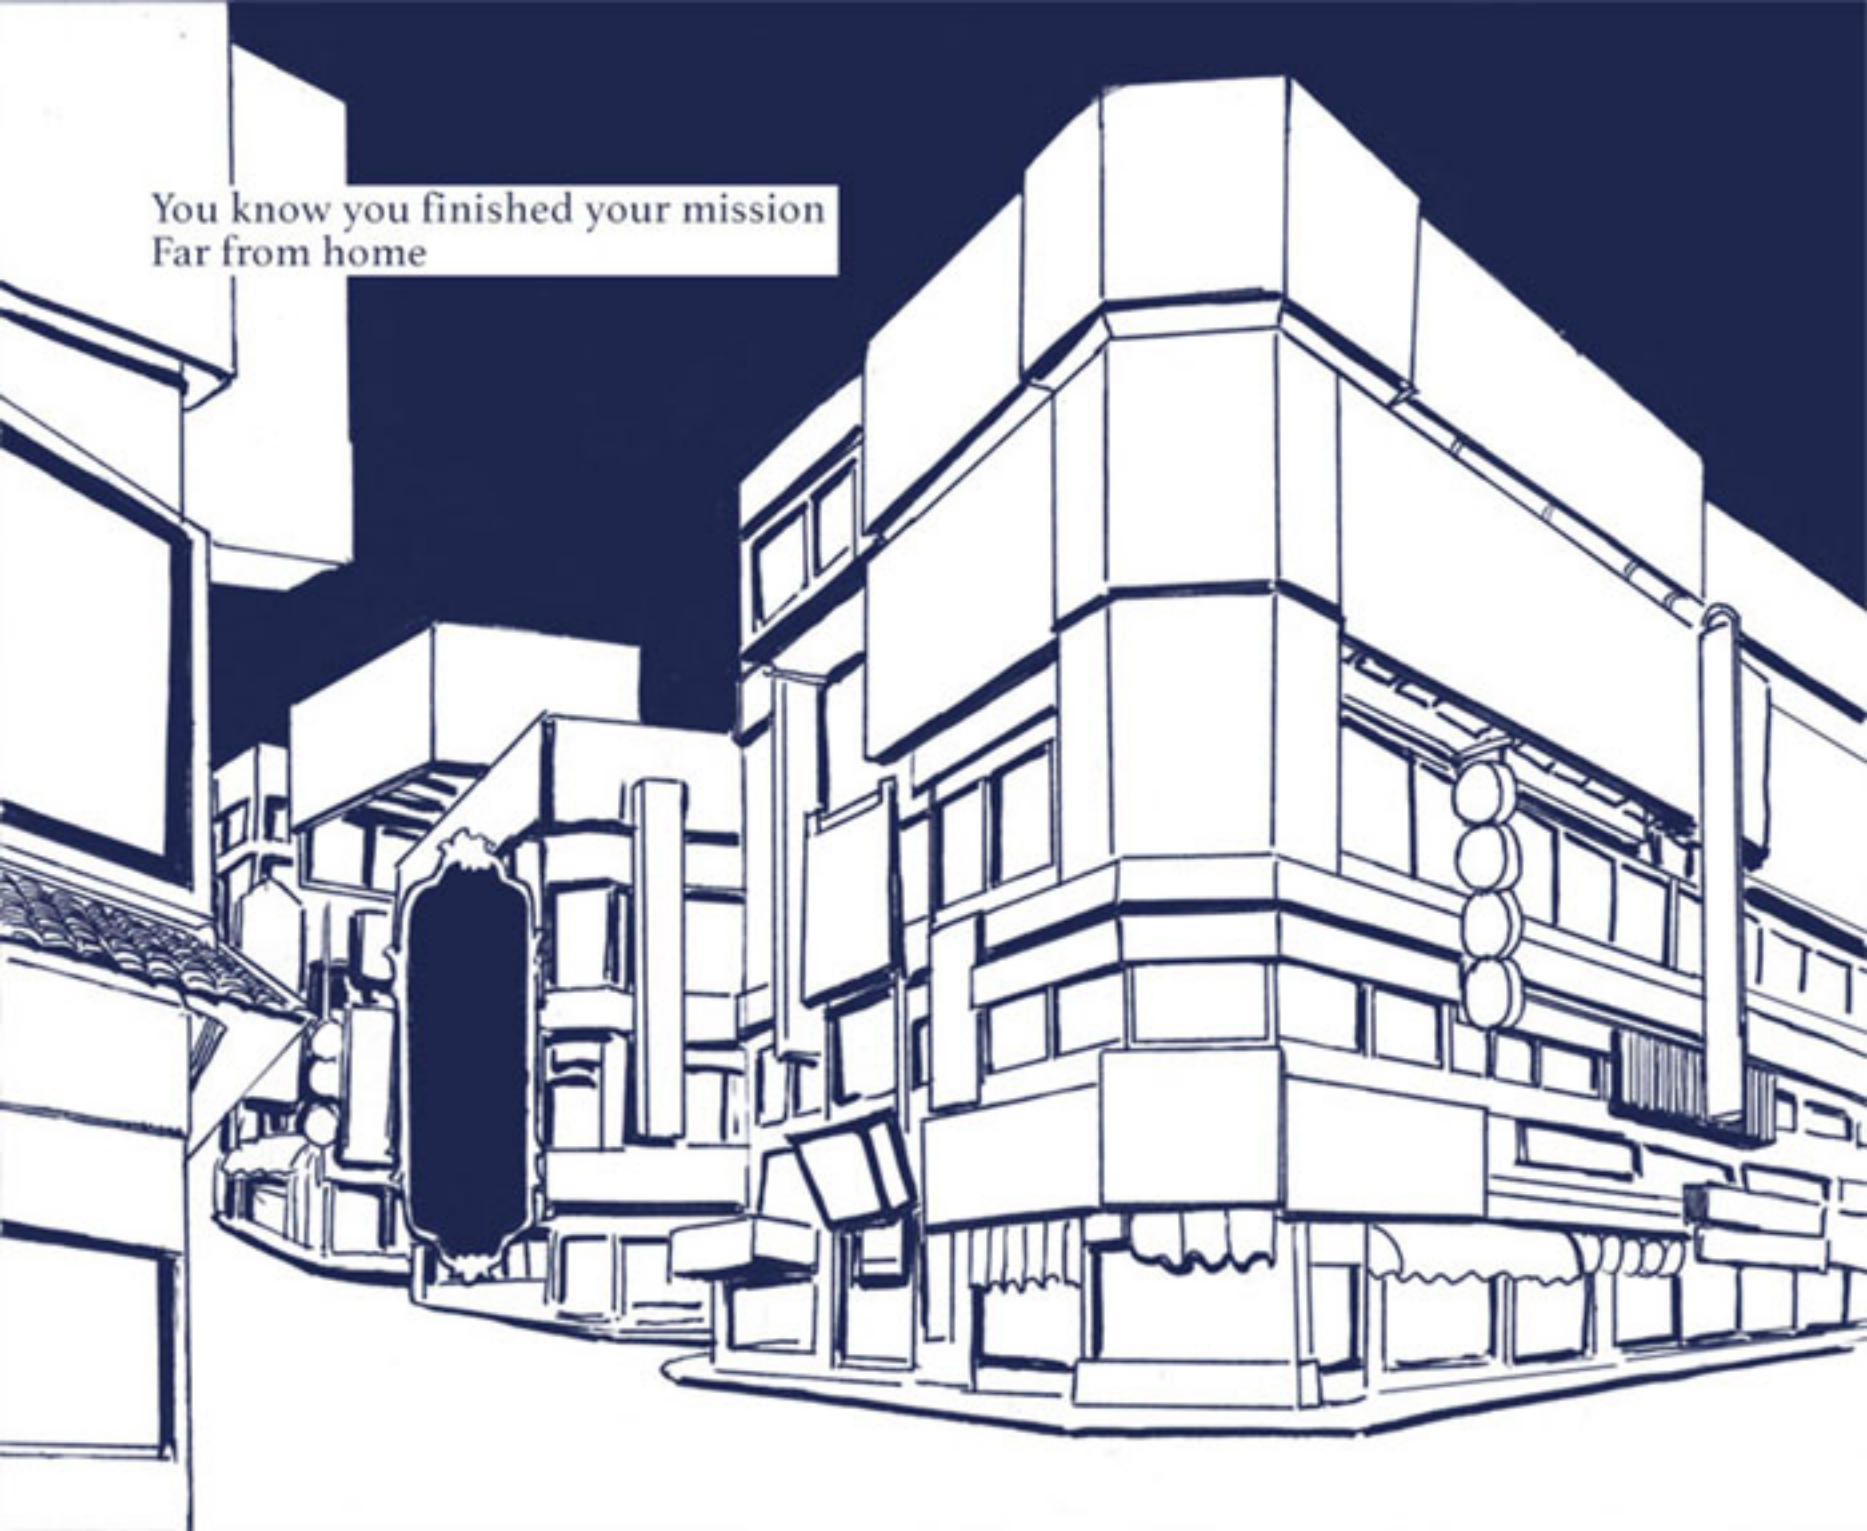




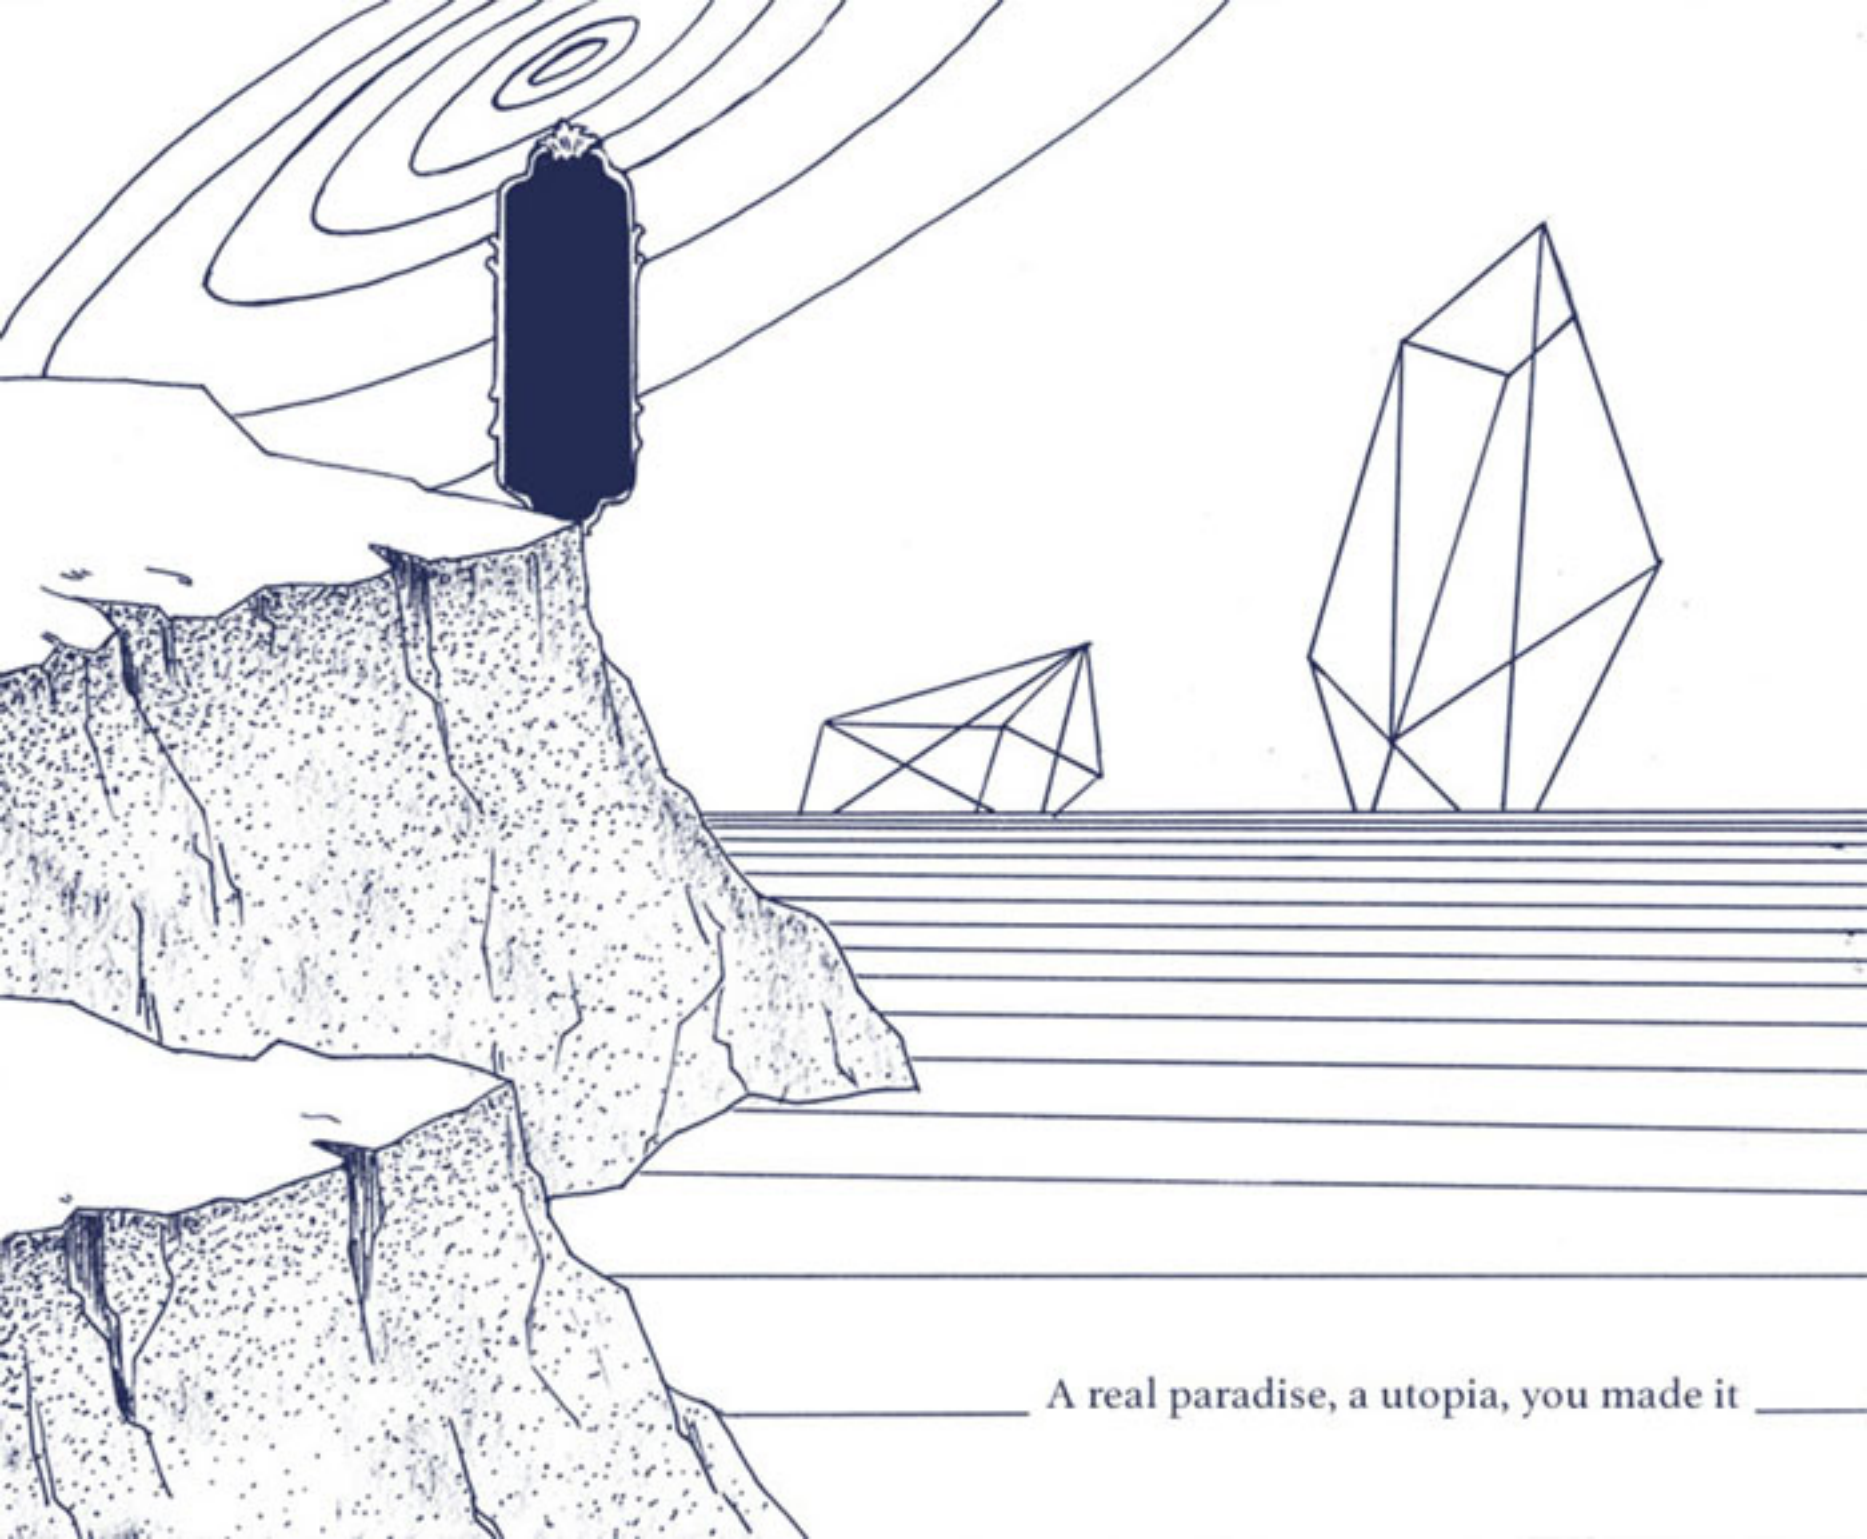


It's almost done



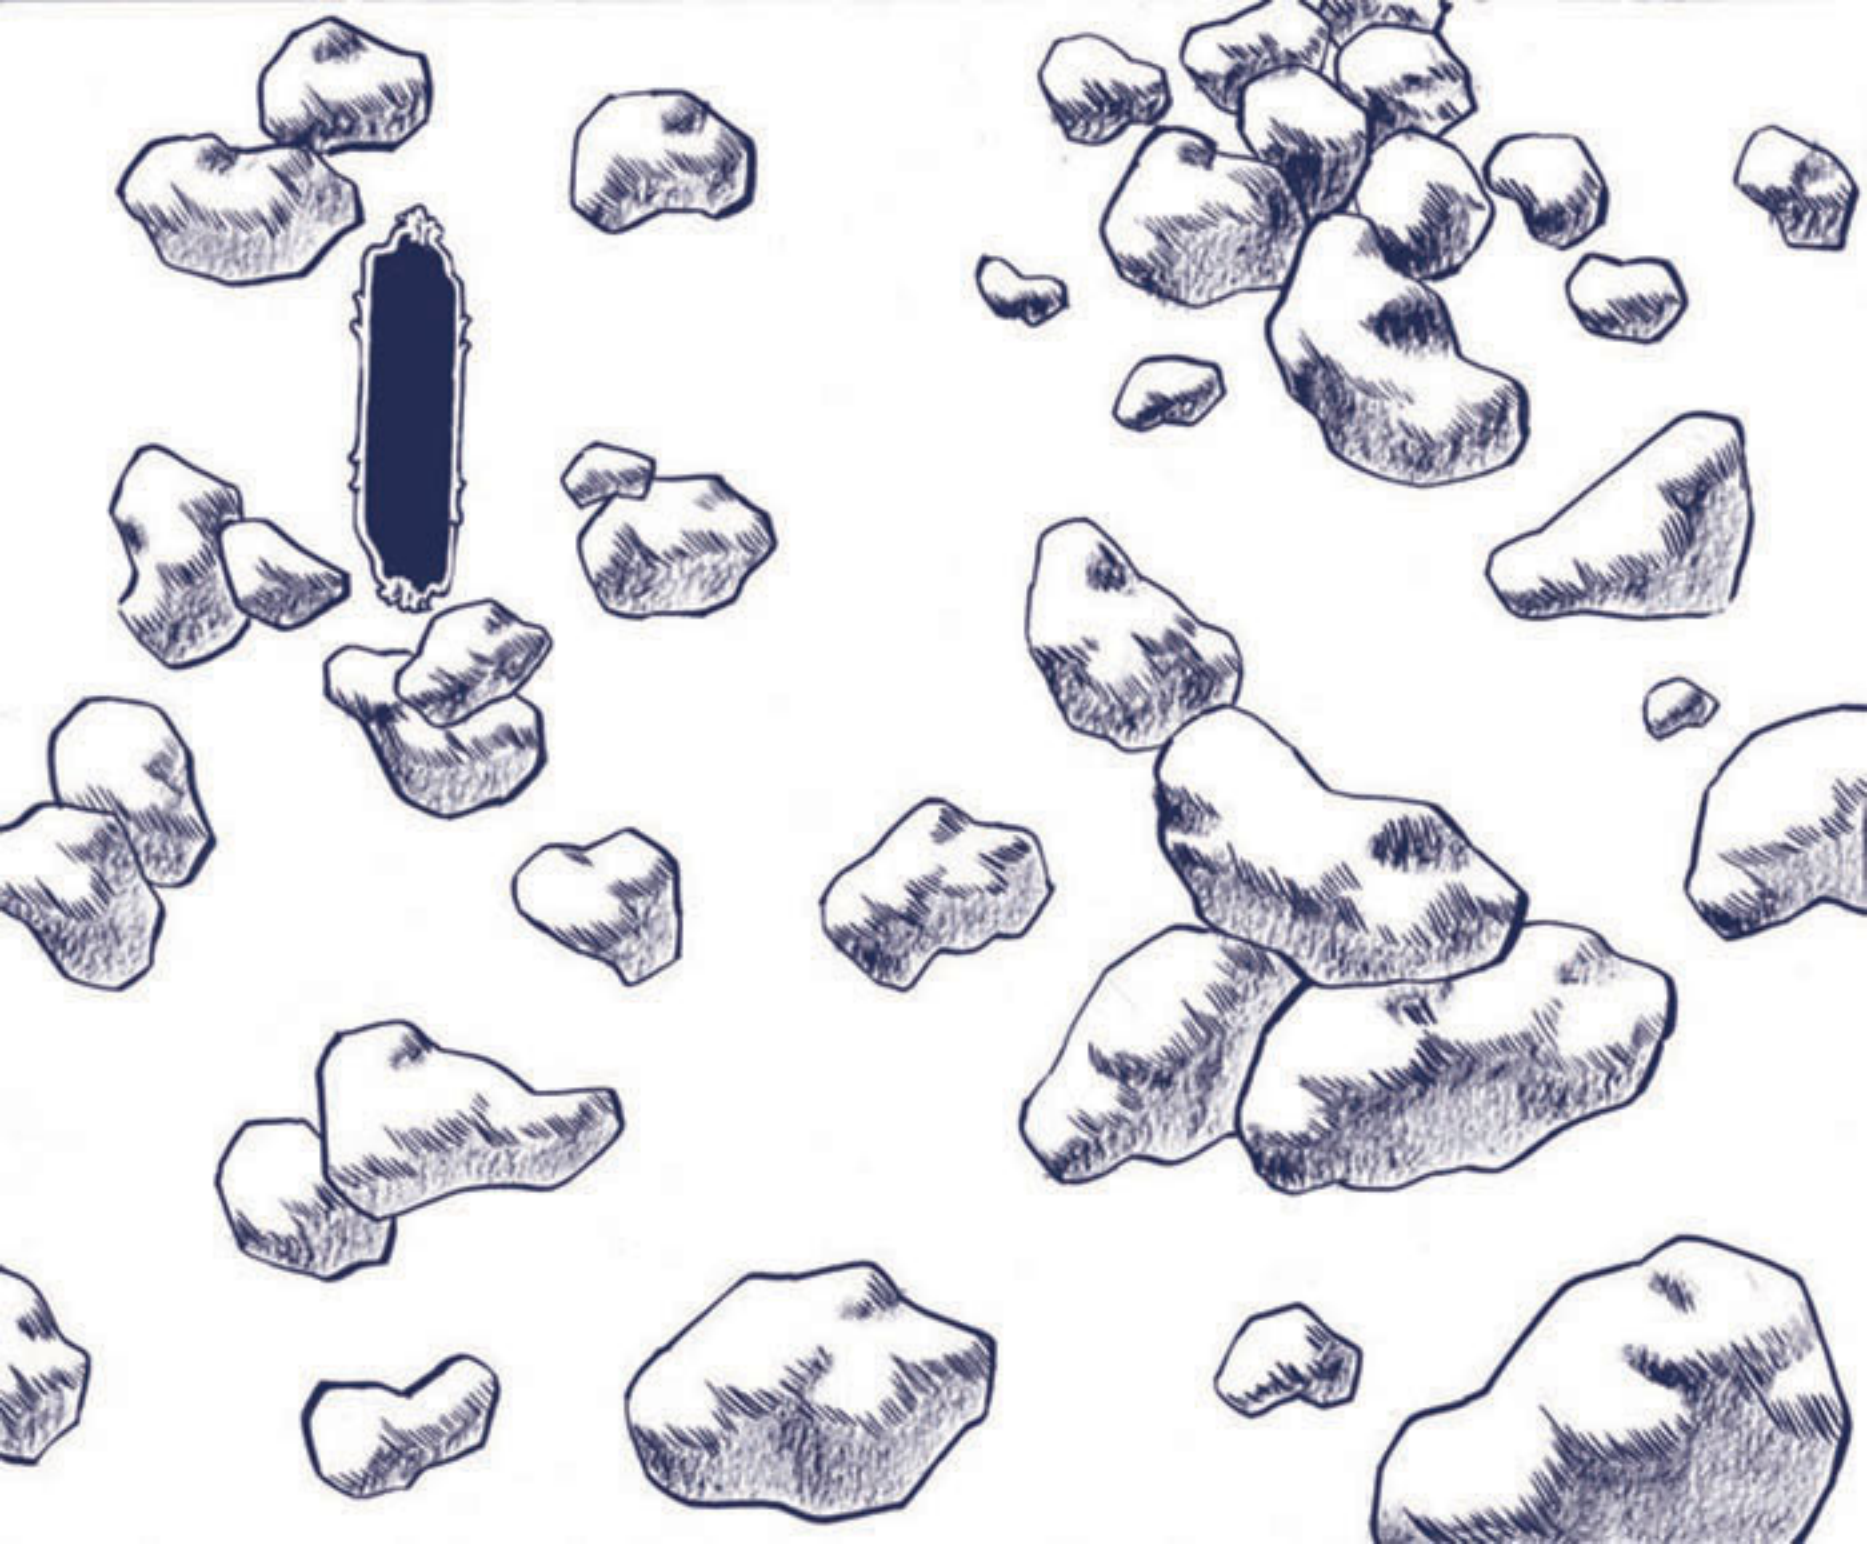


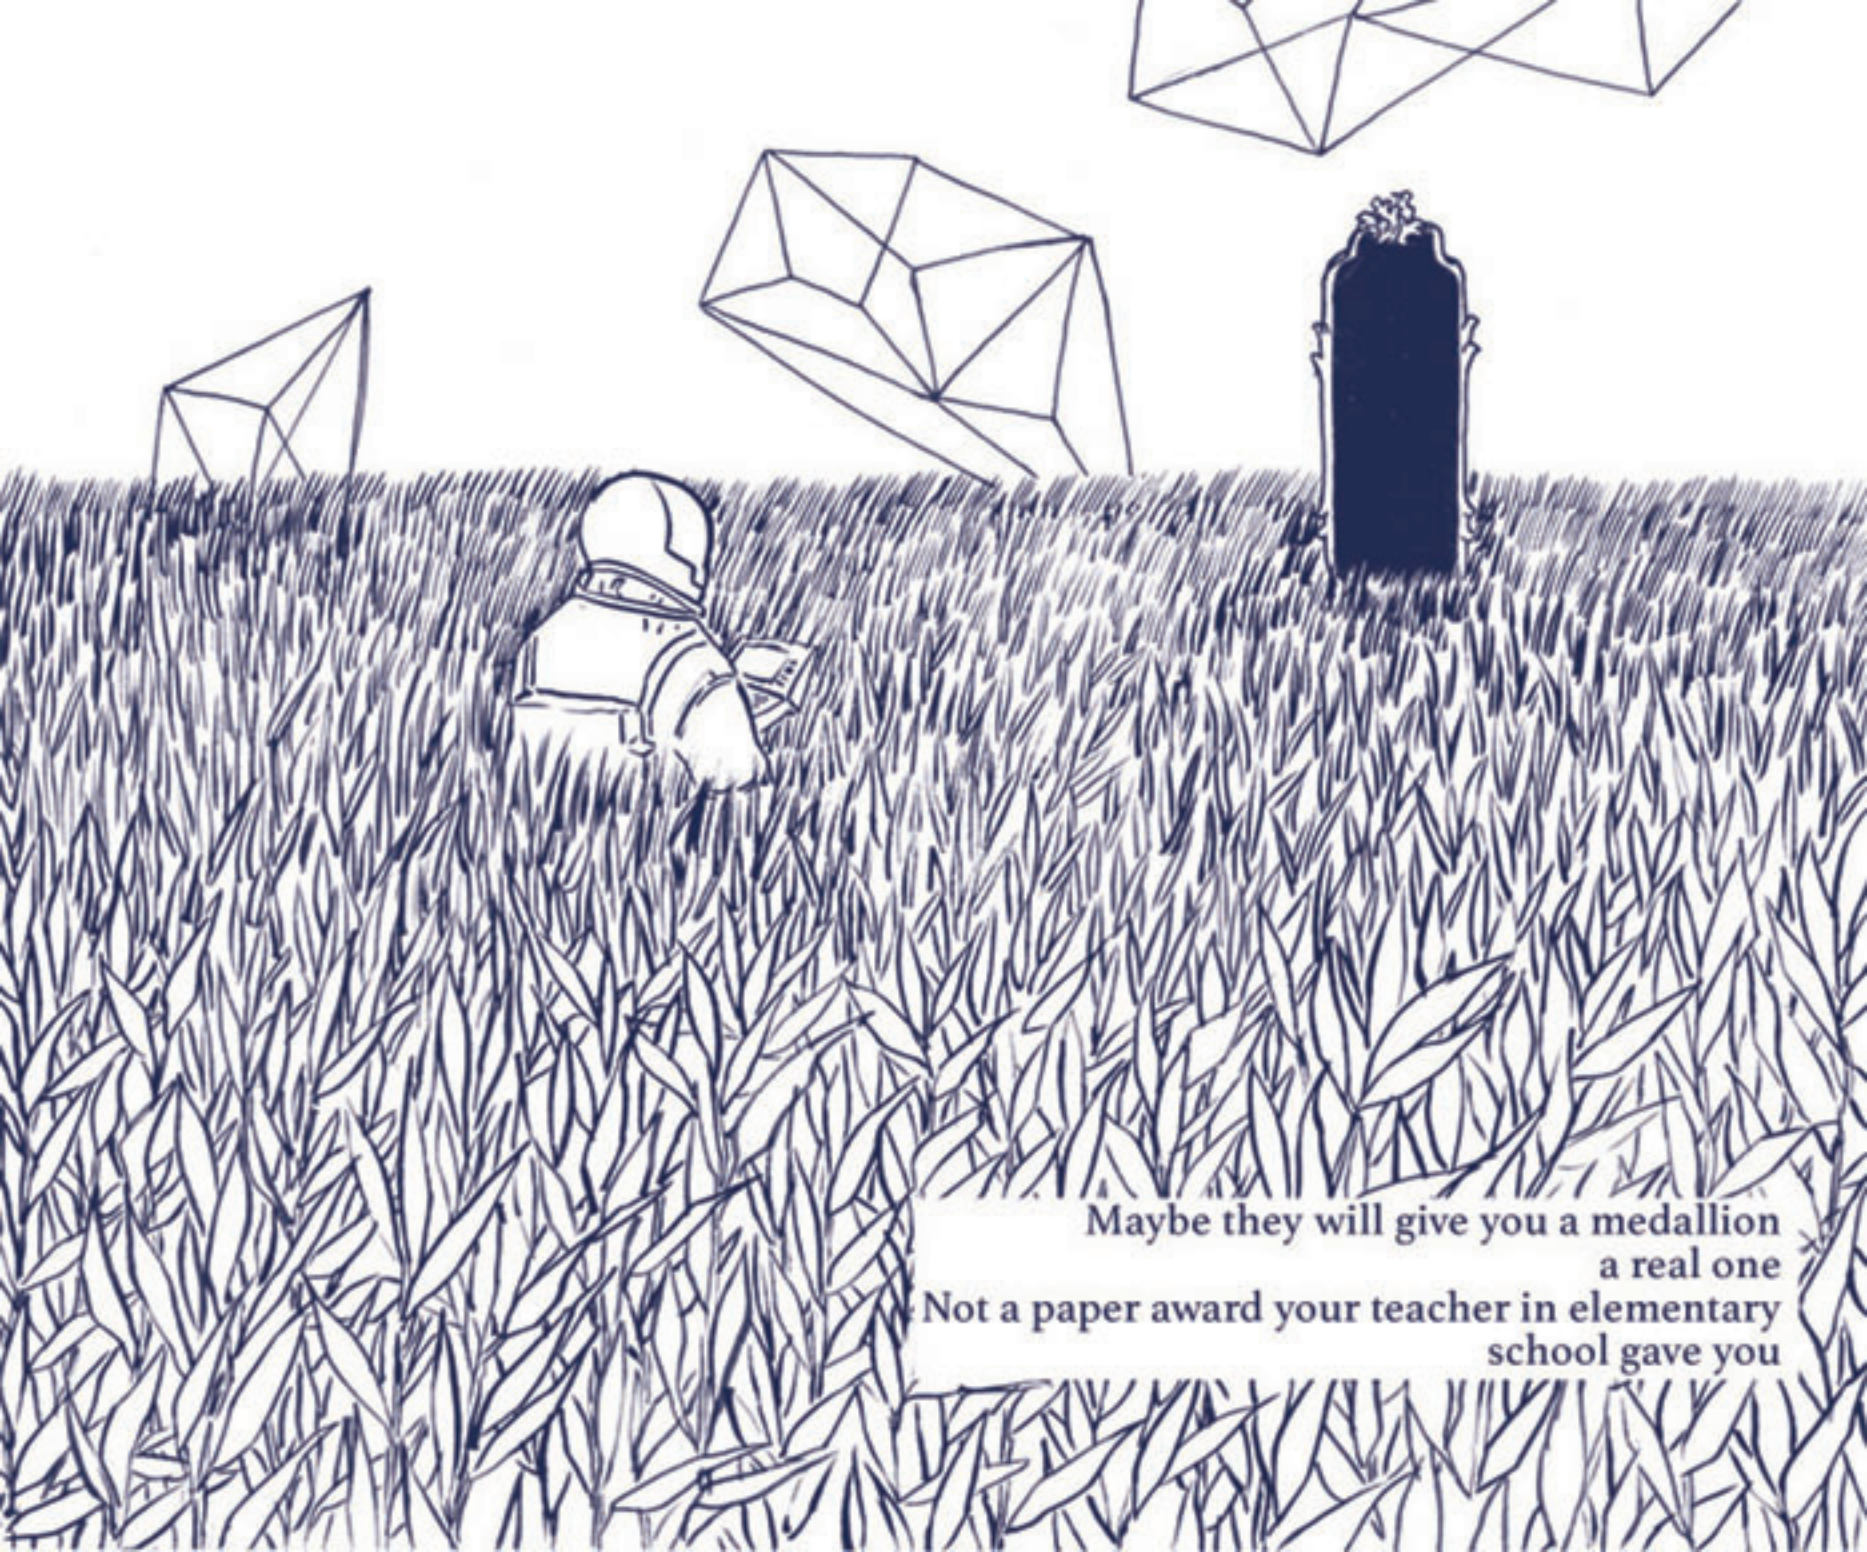
You know you finished your mission
Far from home



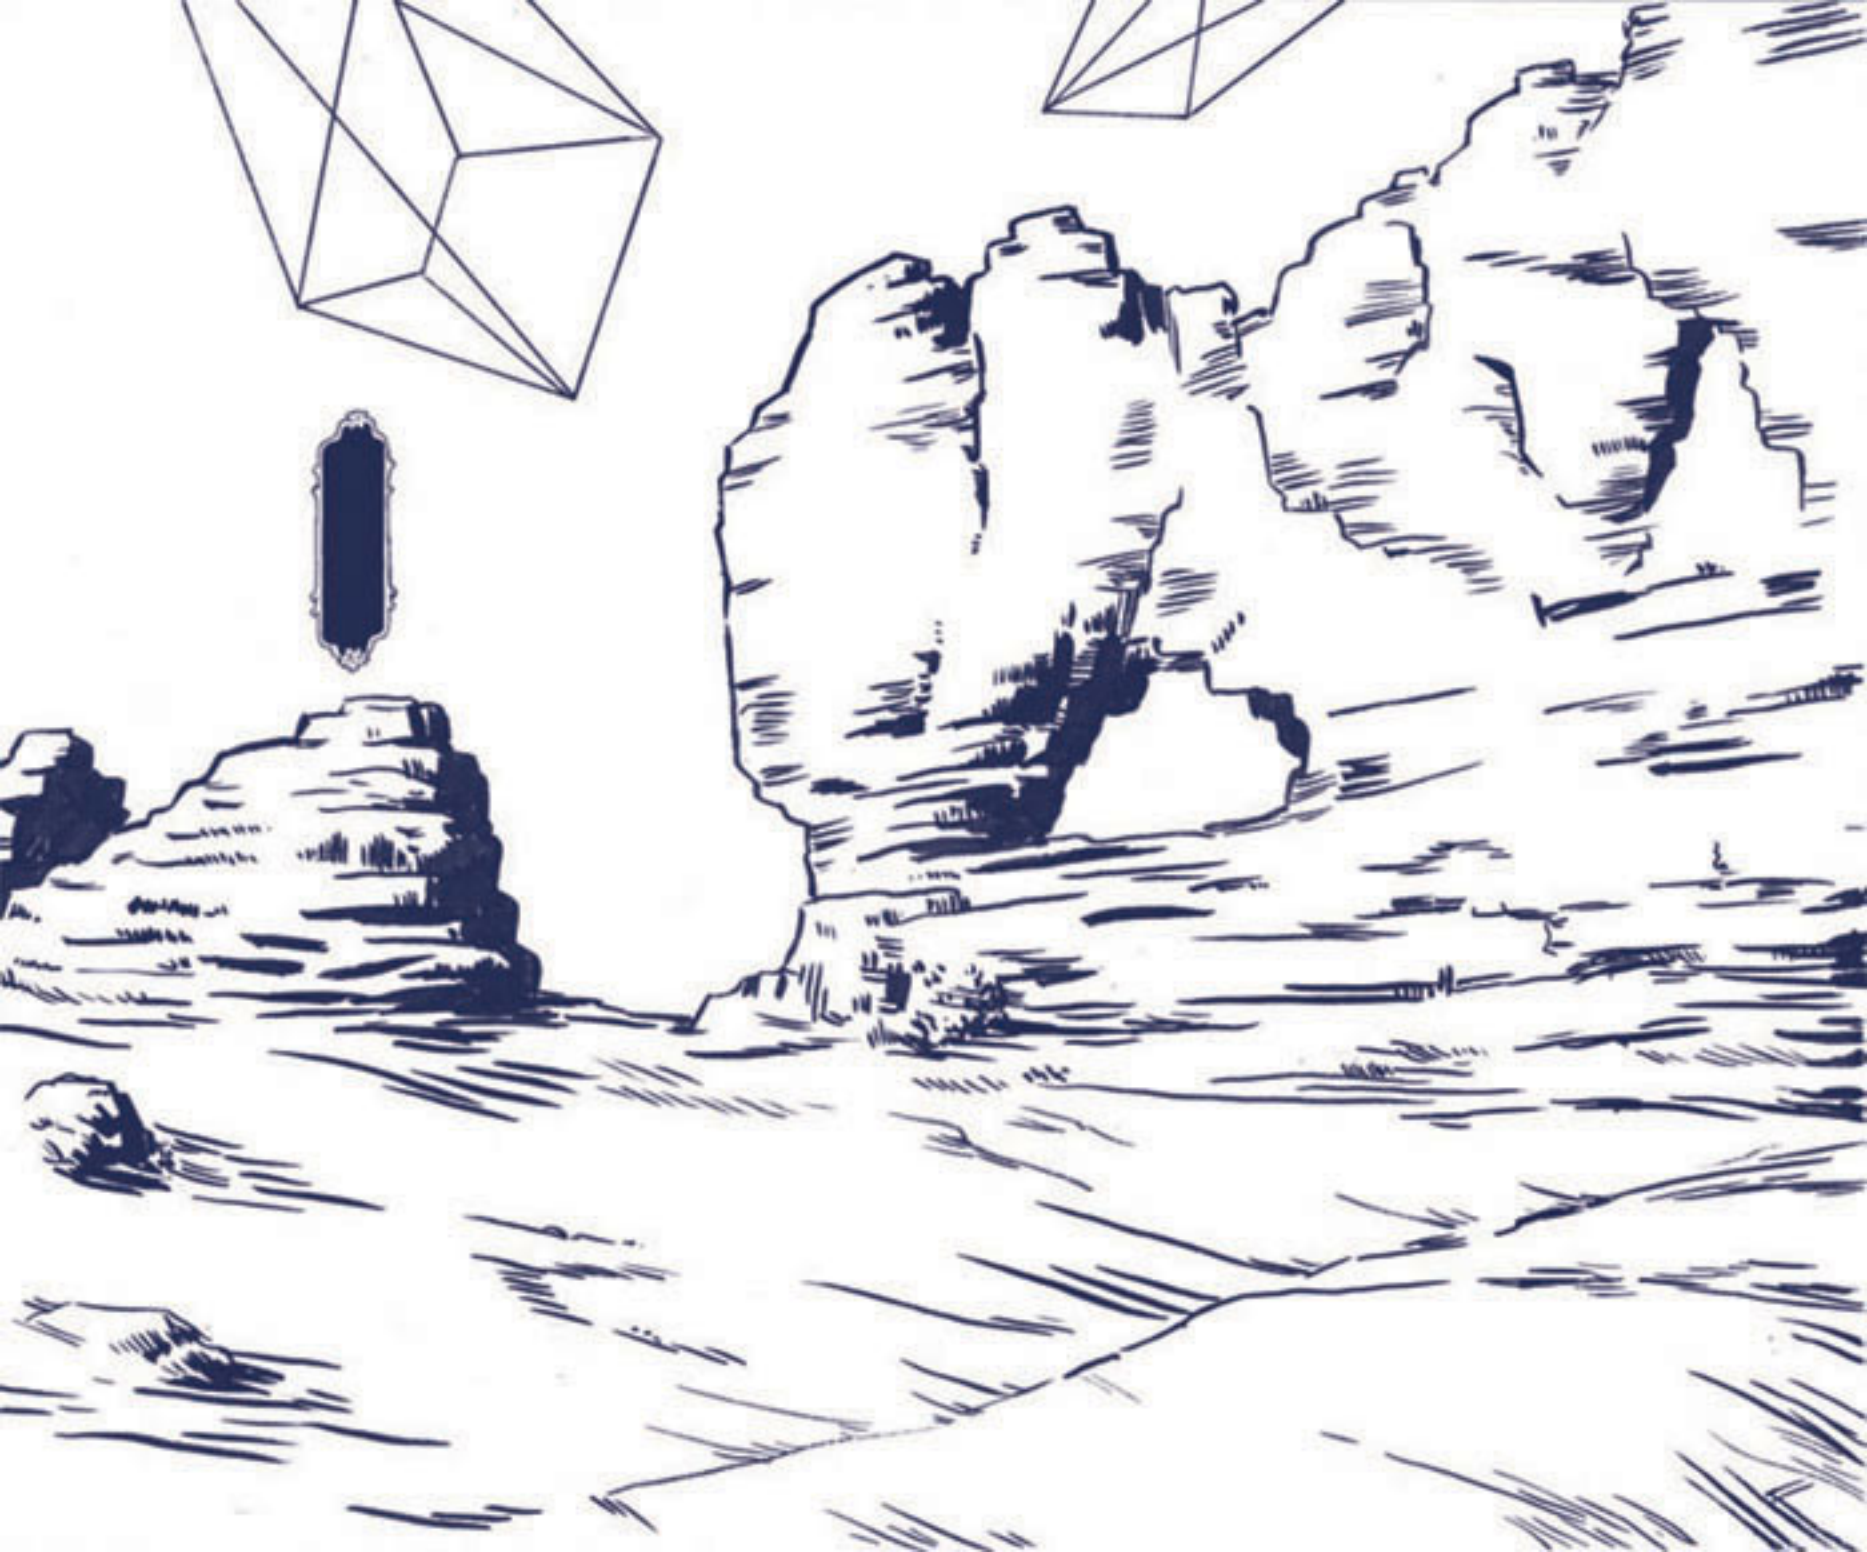
A real paradise, a utopia, you made it

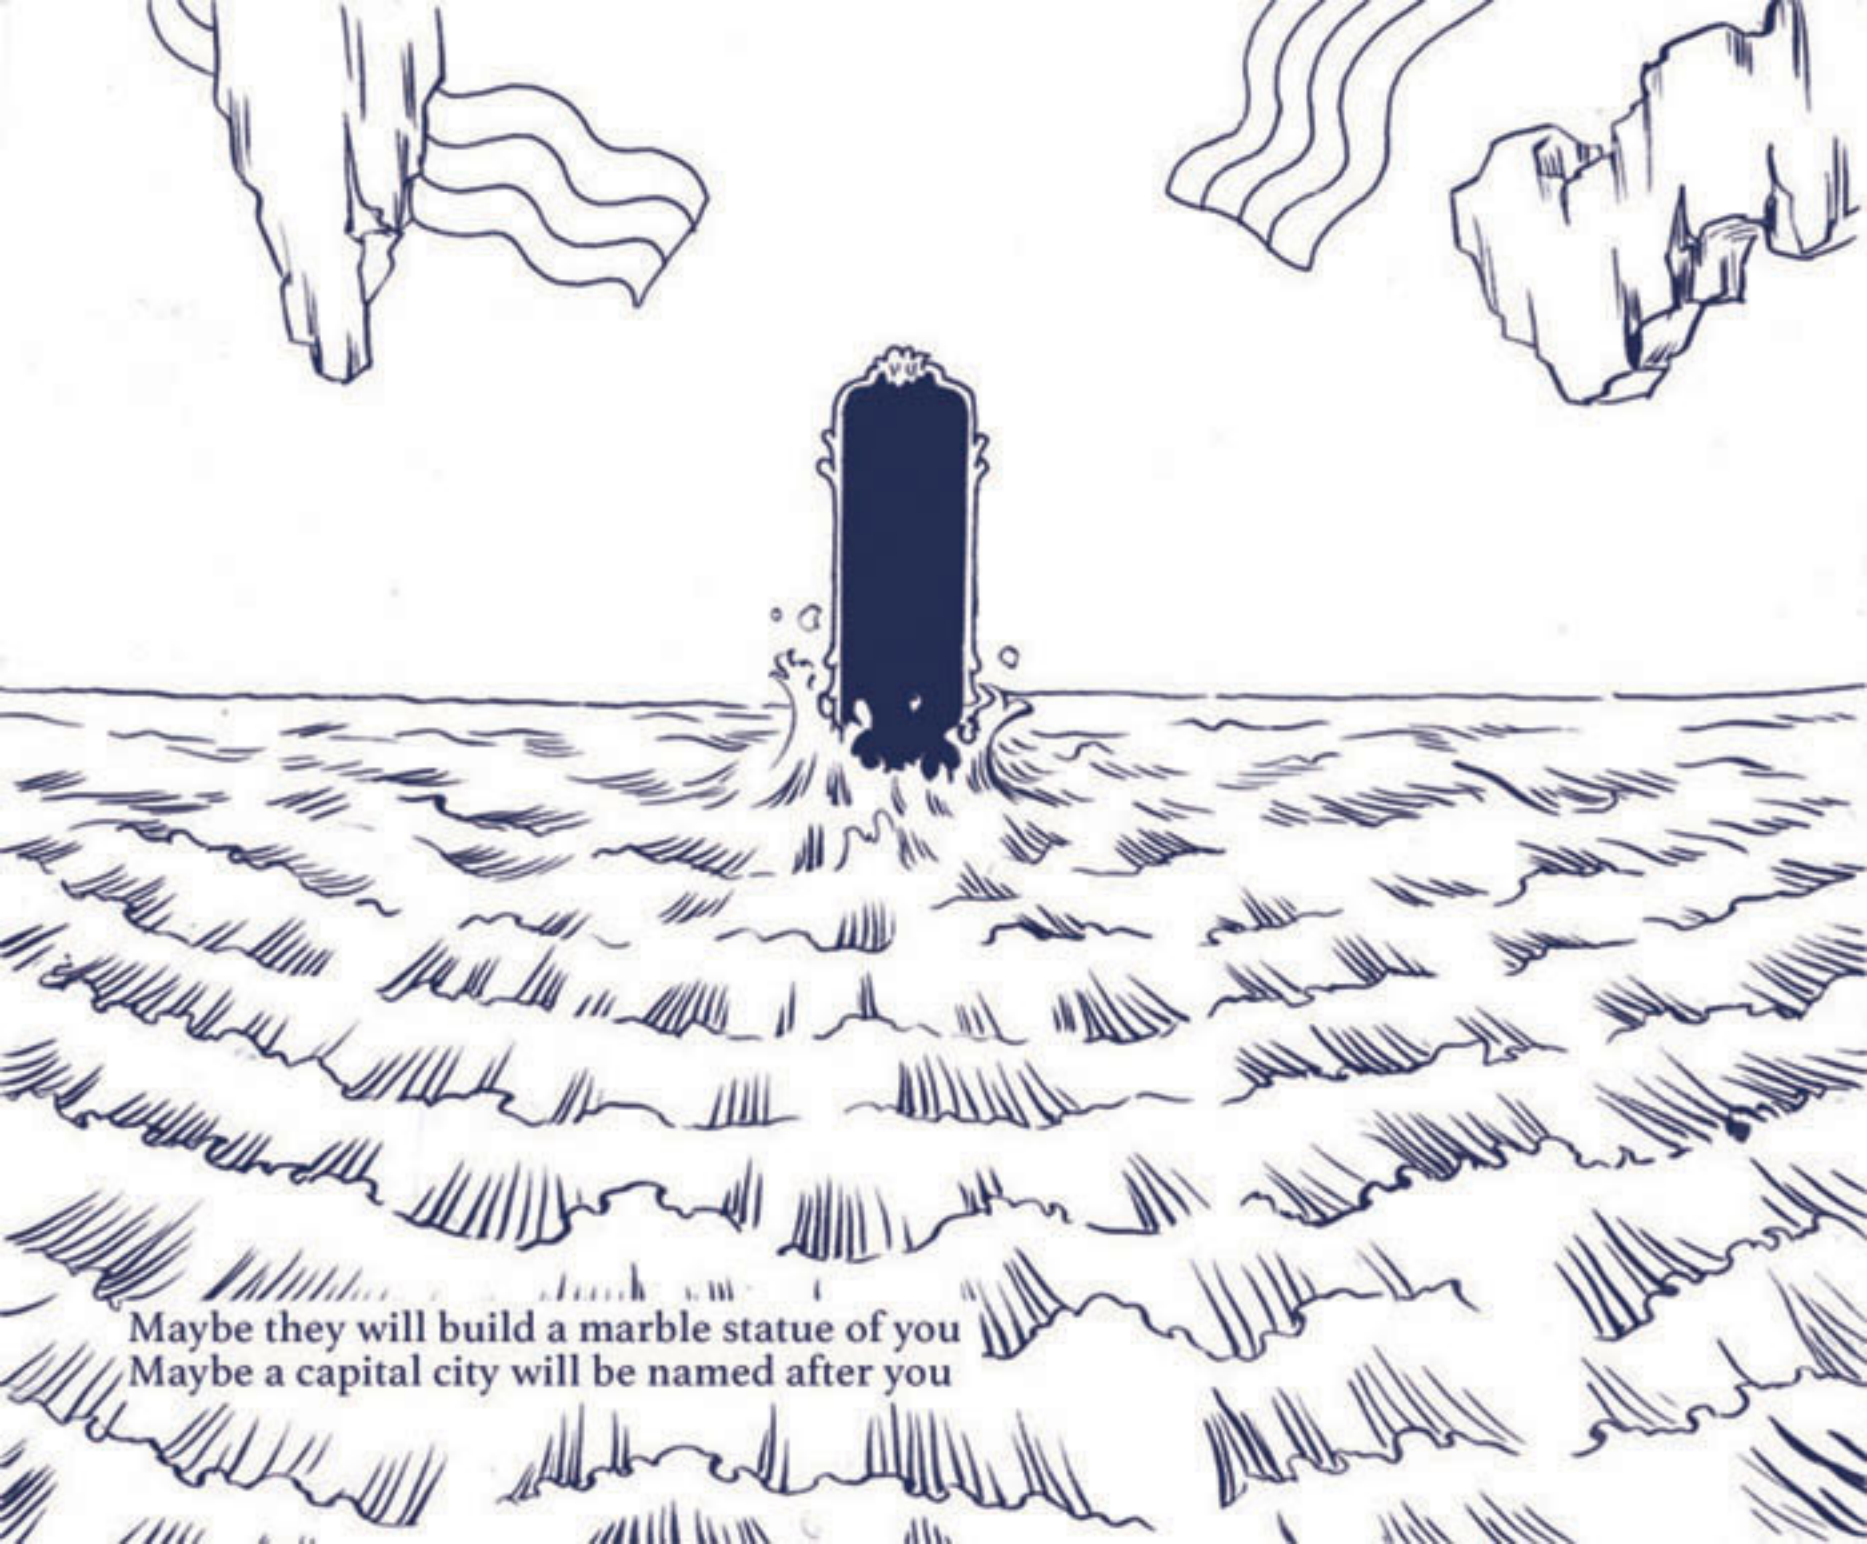
No one has seen it yet
But they will



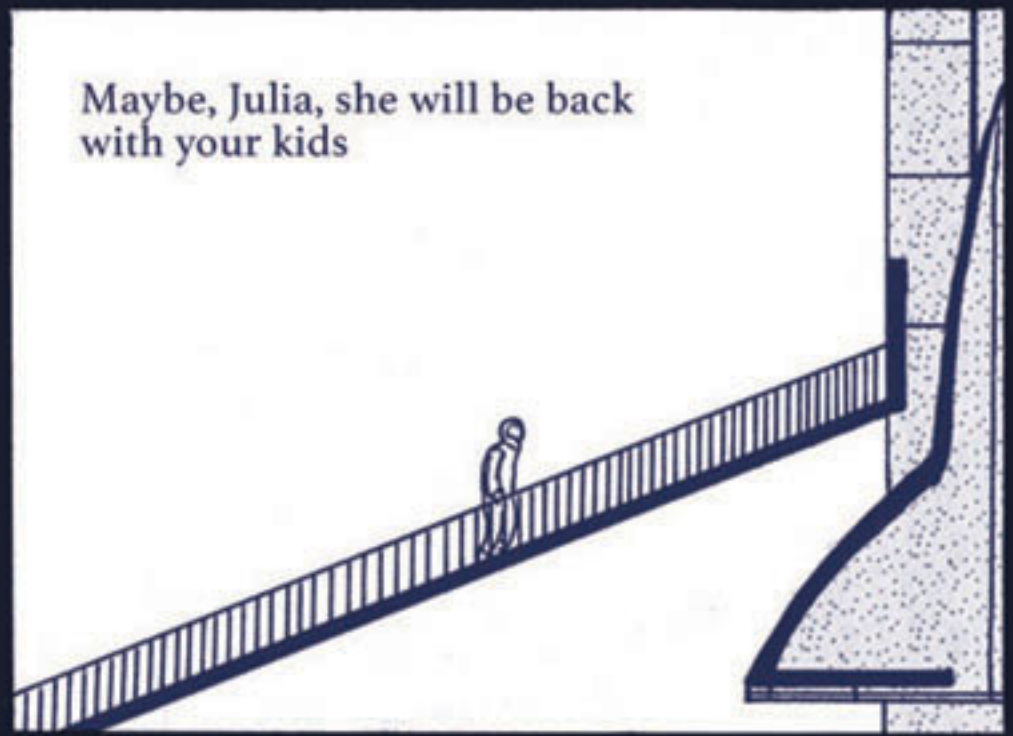


Maybe they will give you a medallion
a real one
Not a paper award your teacher in elementary
school gave you

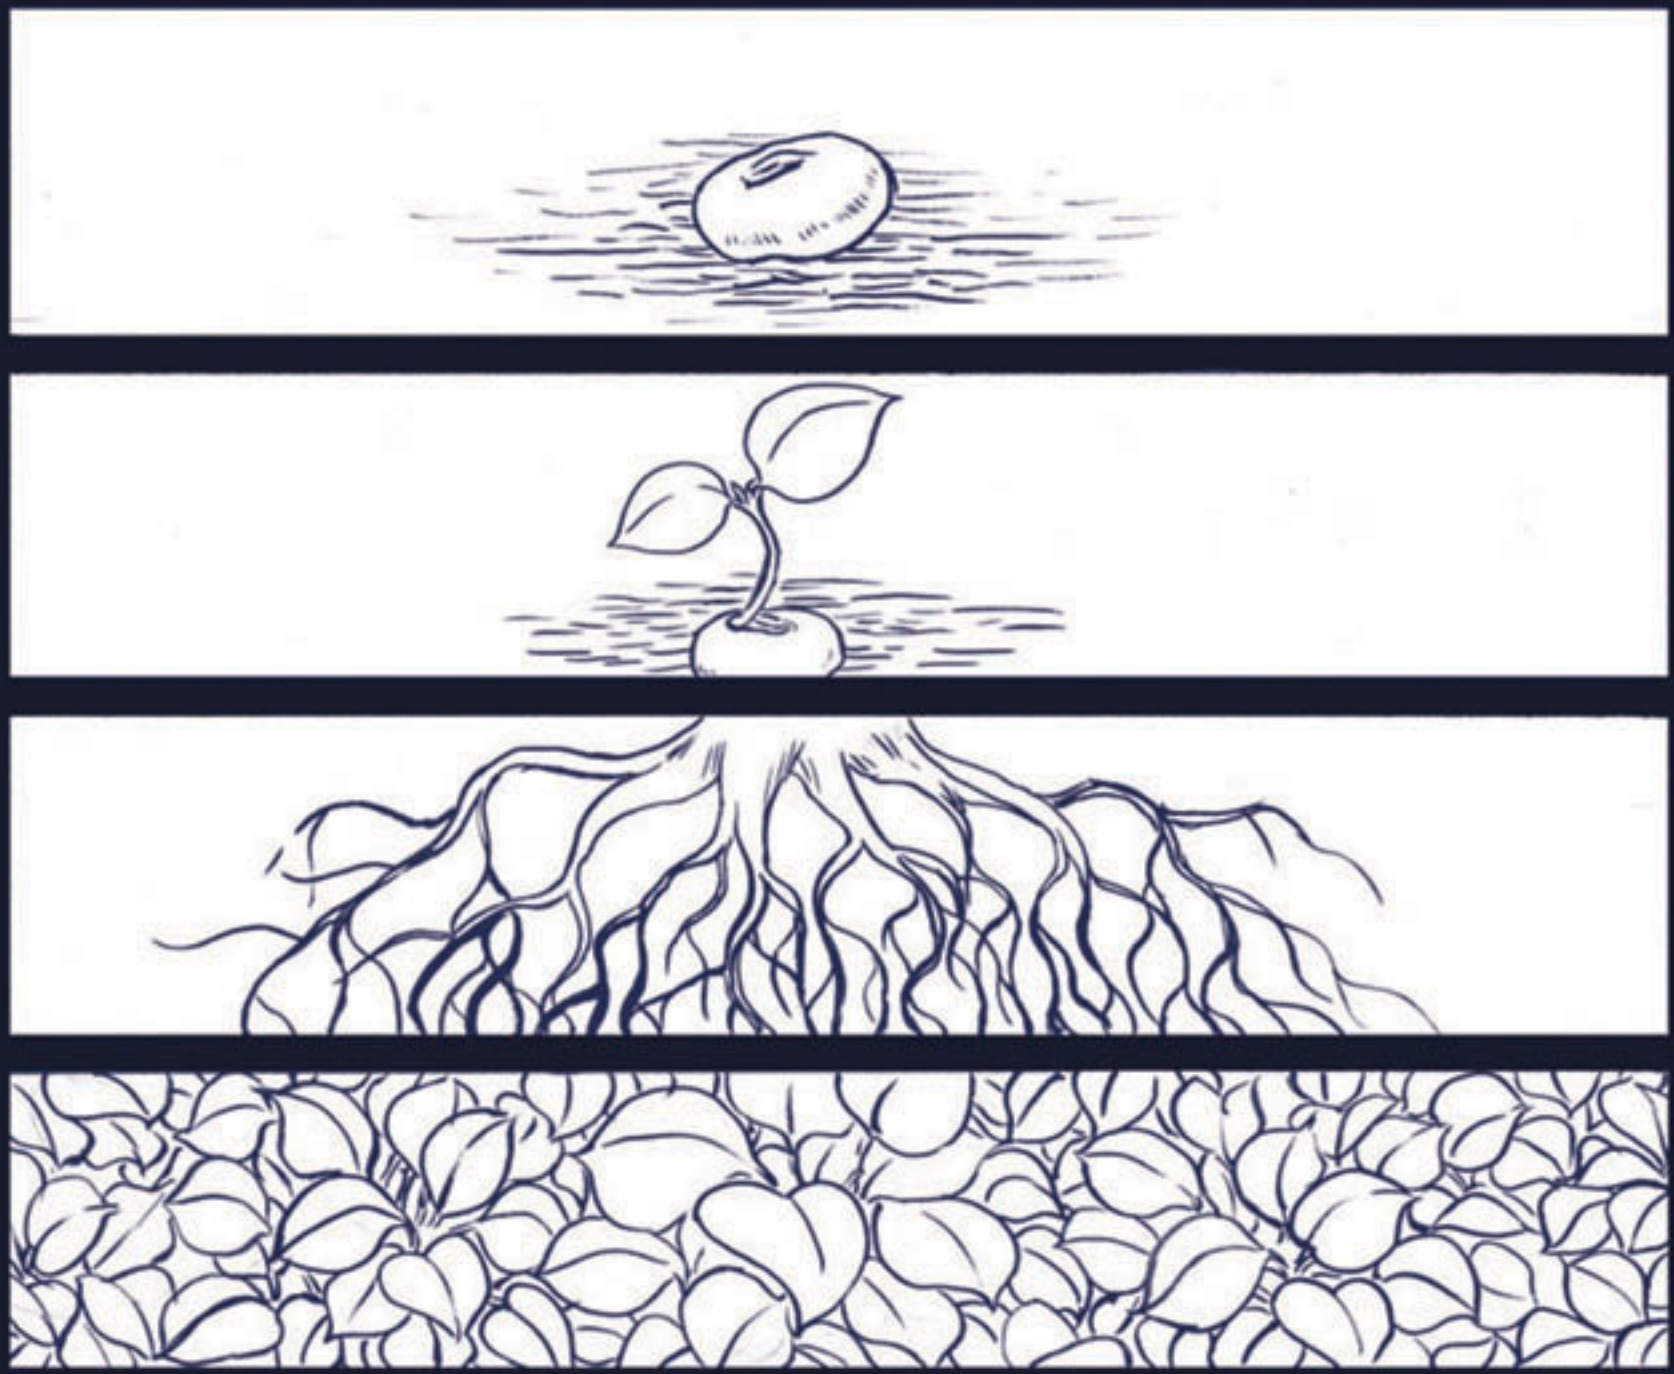


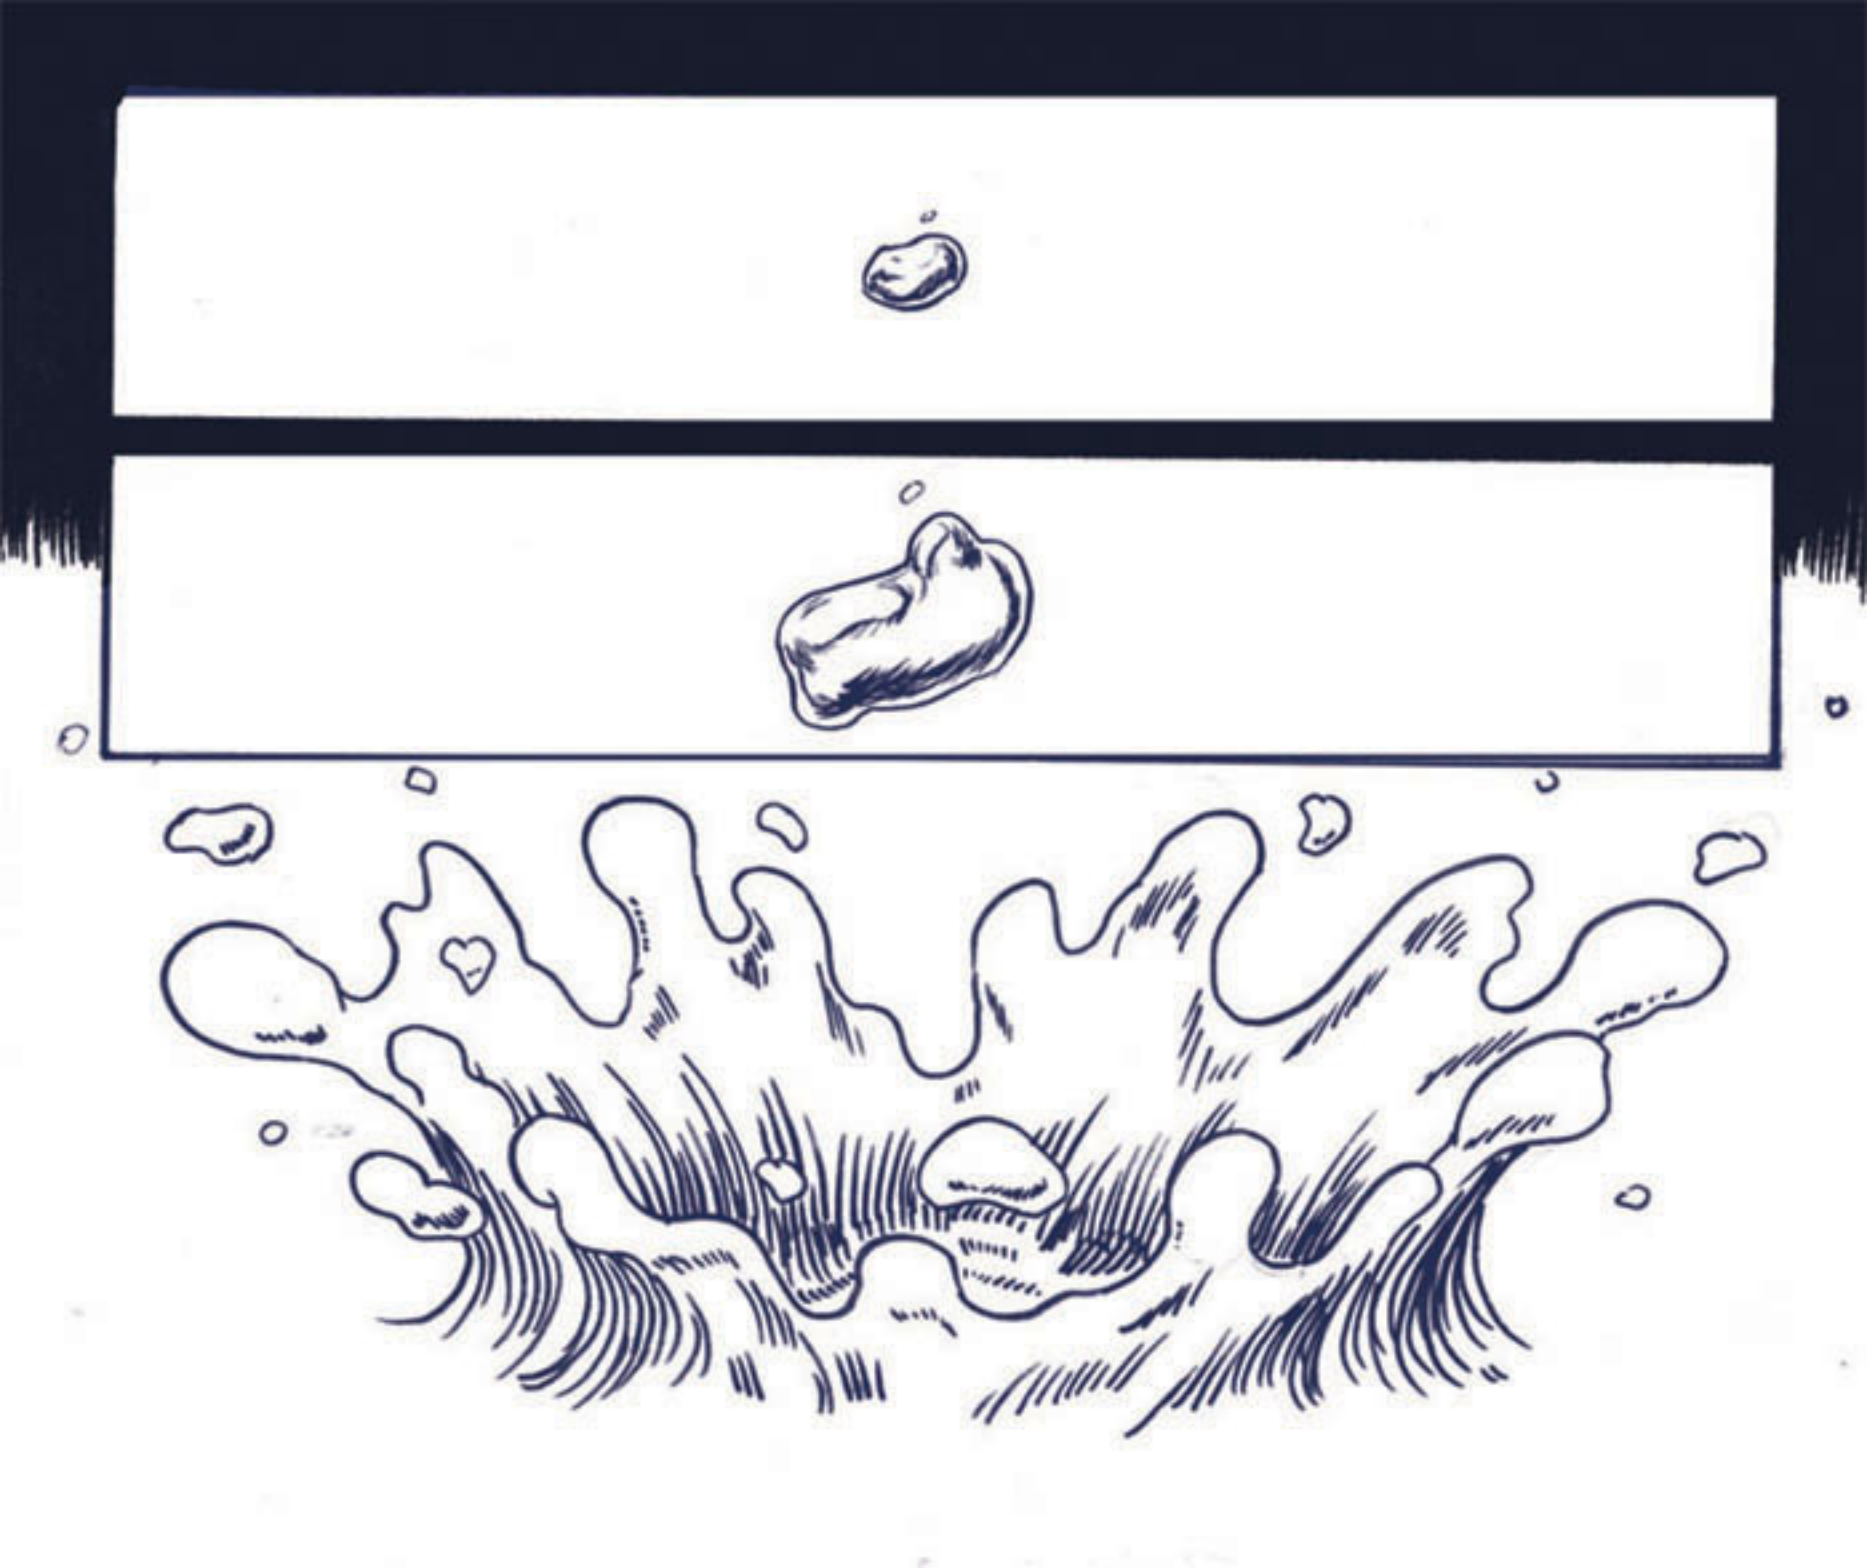


Maybe they will build a marble statue of you
Maybe a capital city will be named after you

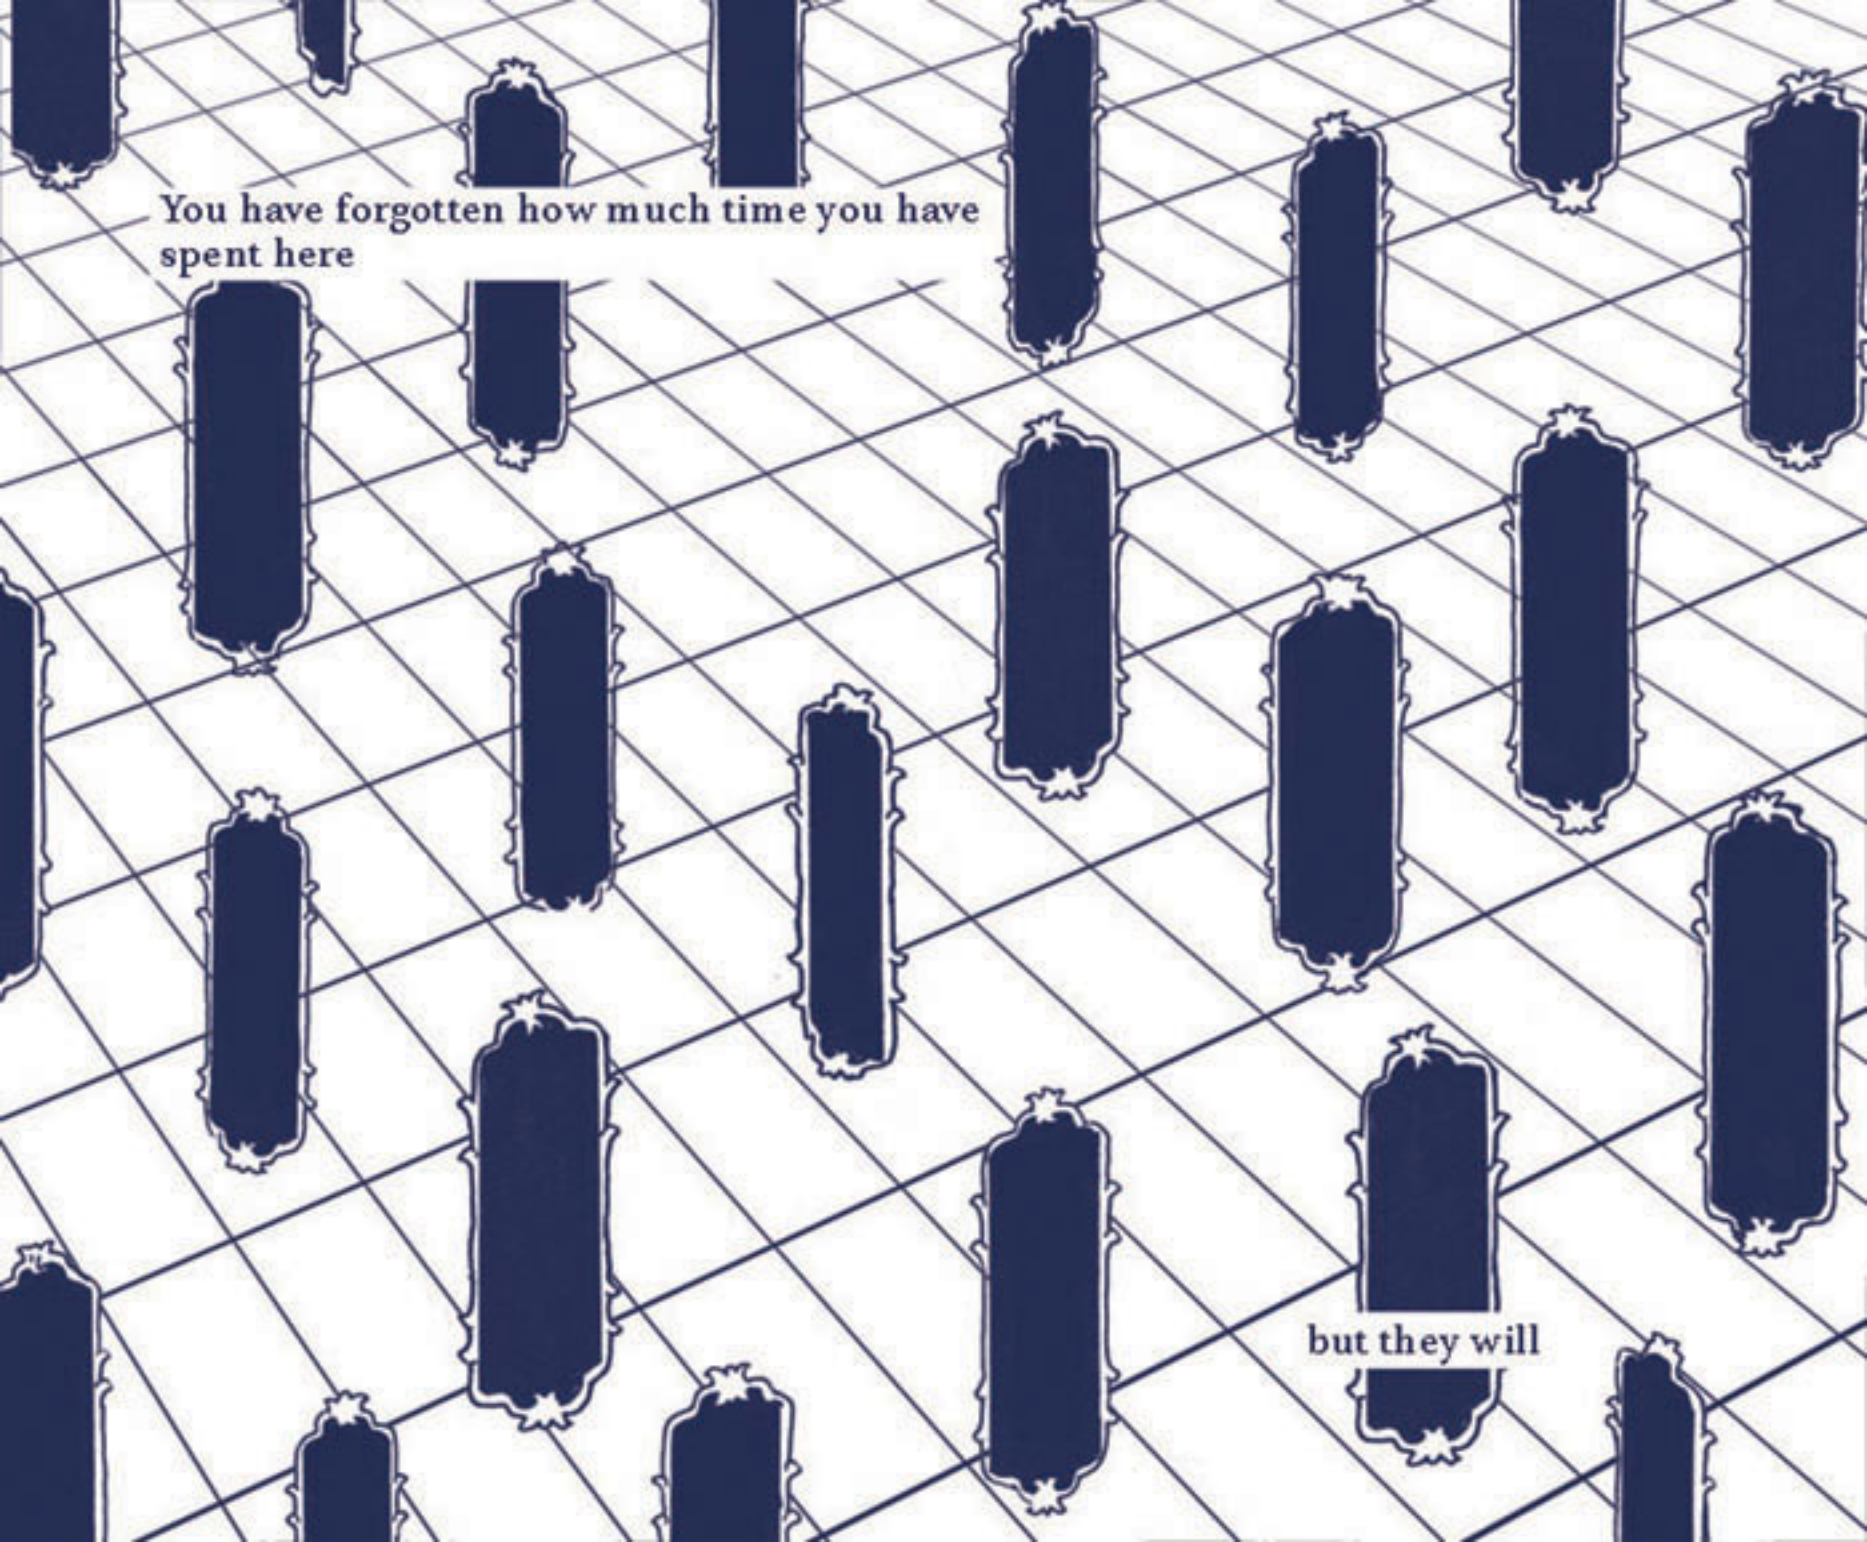


Maybe, Julia, she will be back
with your kids

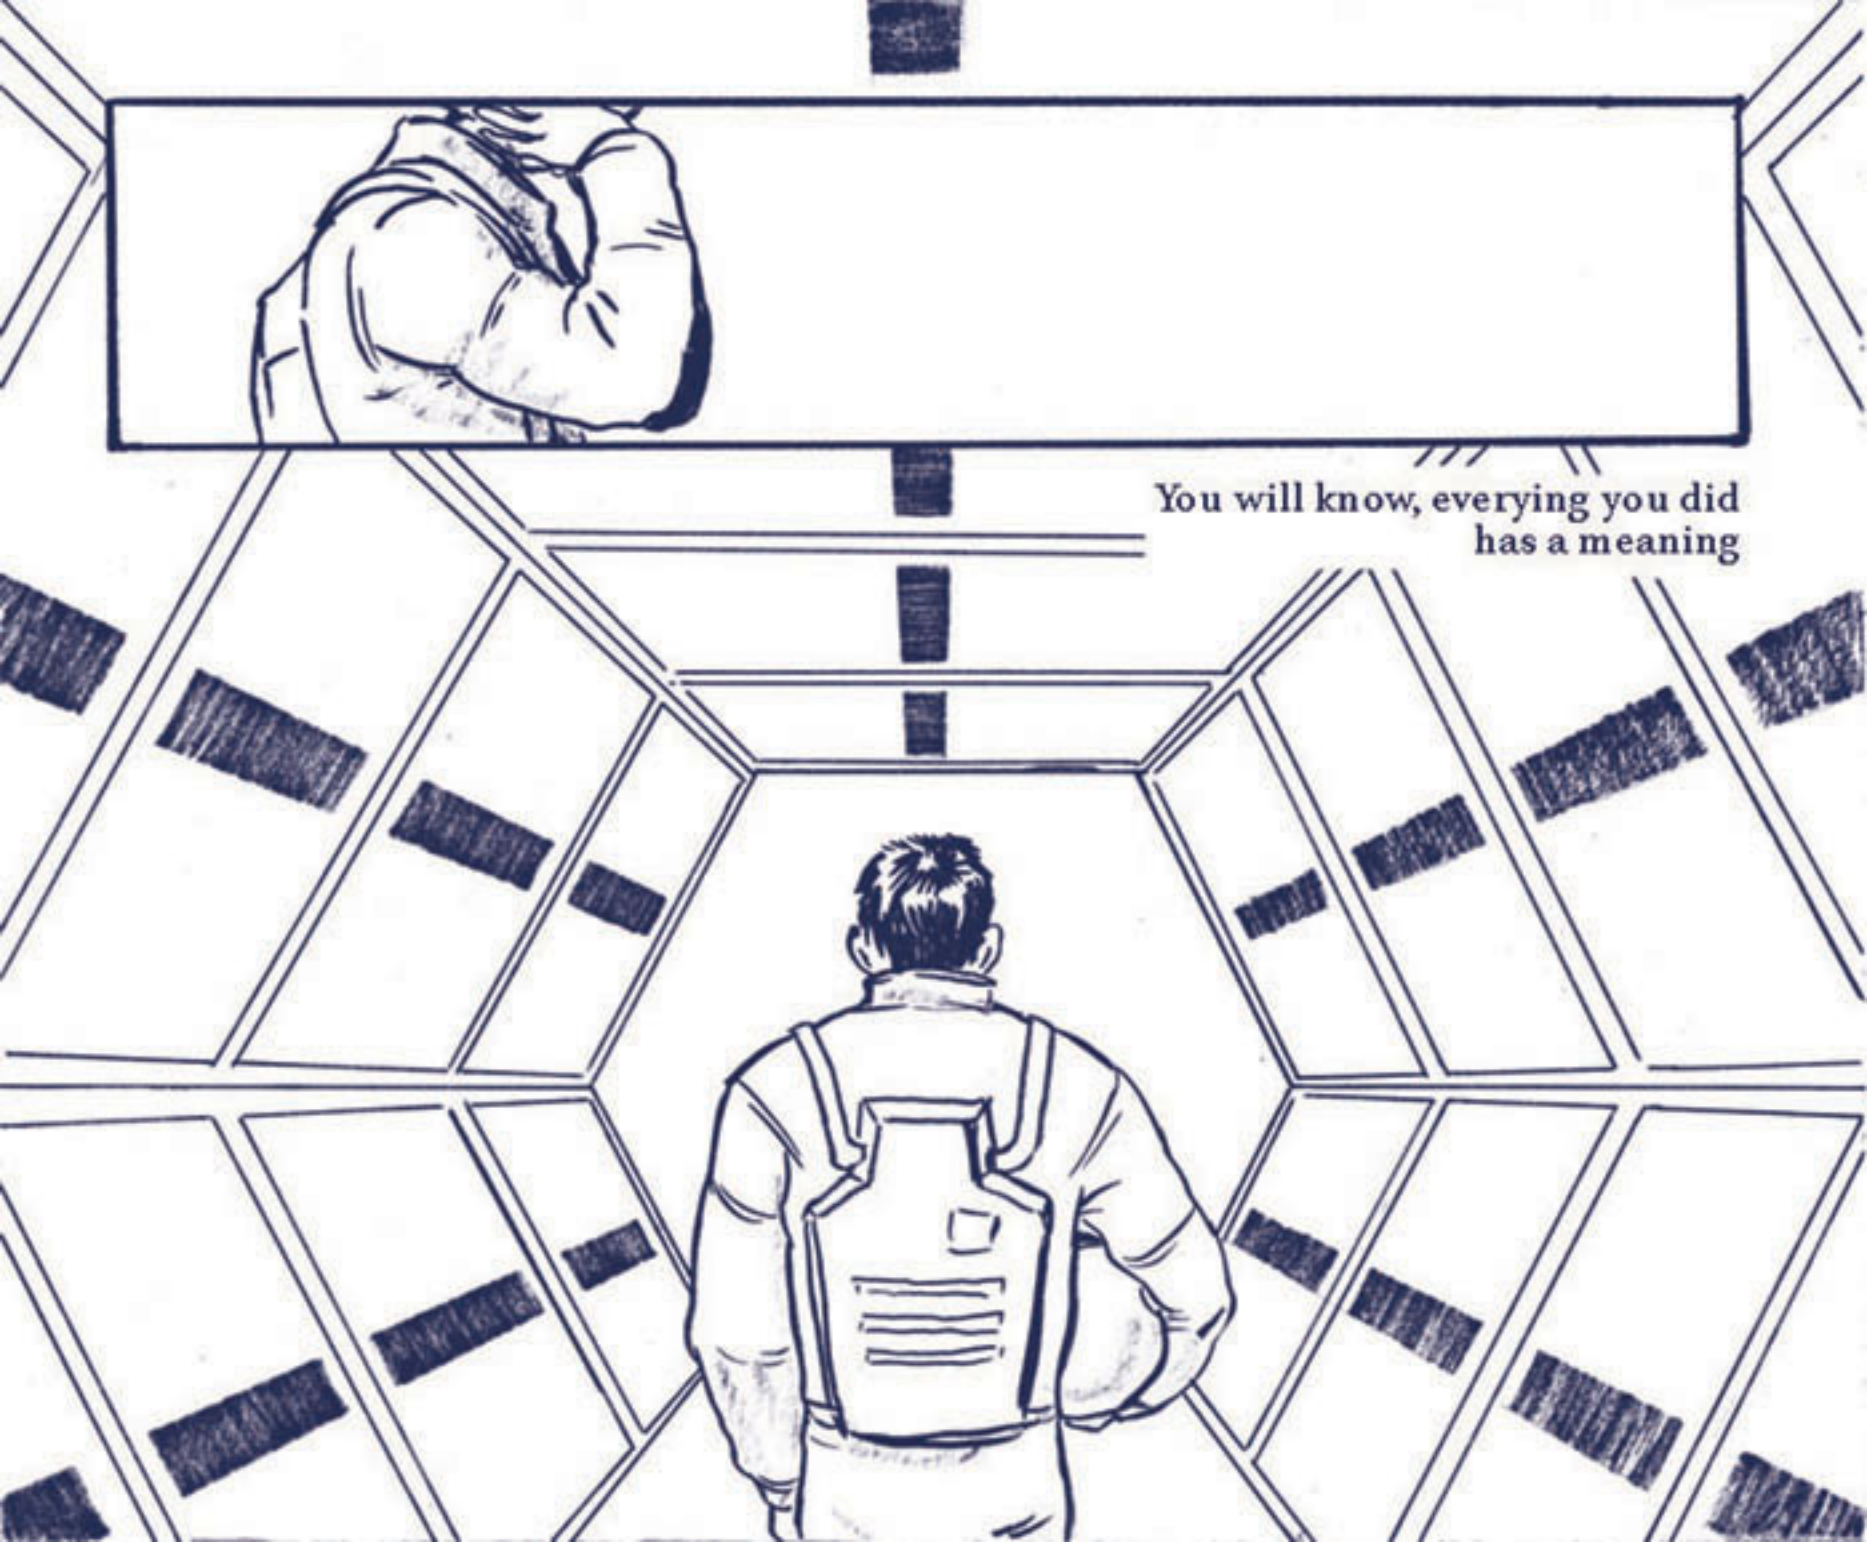




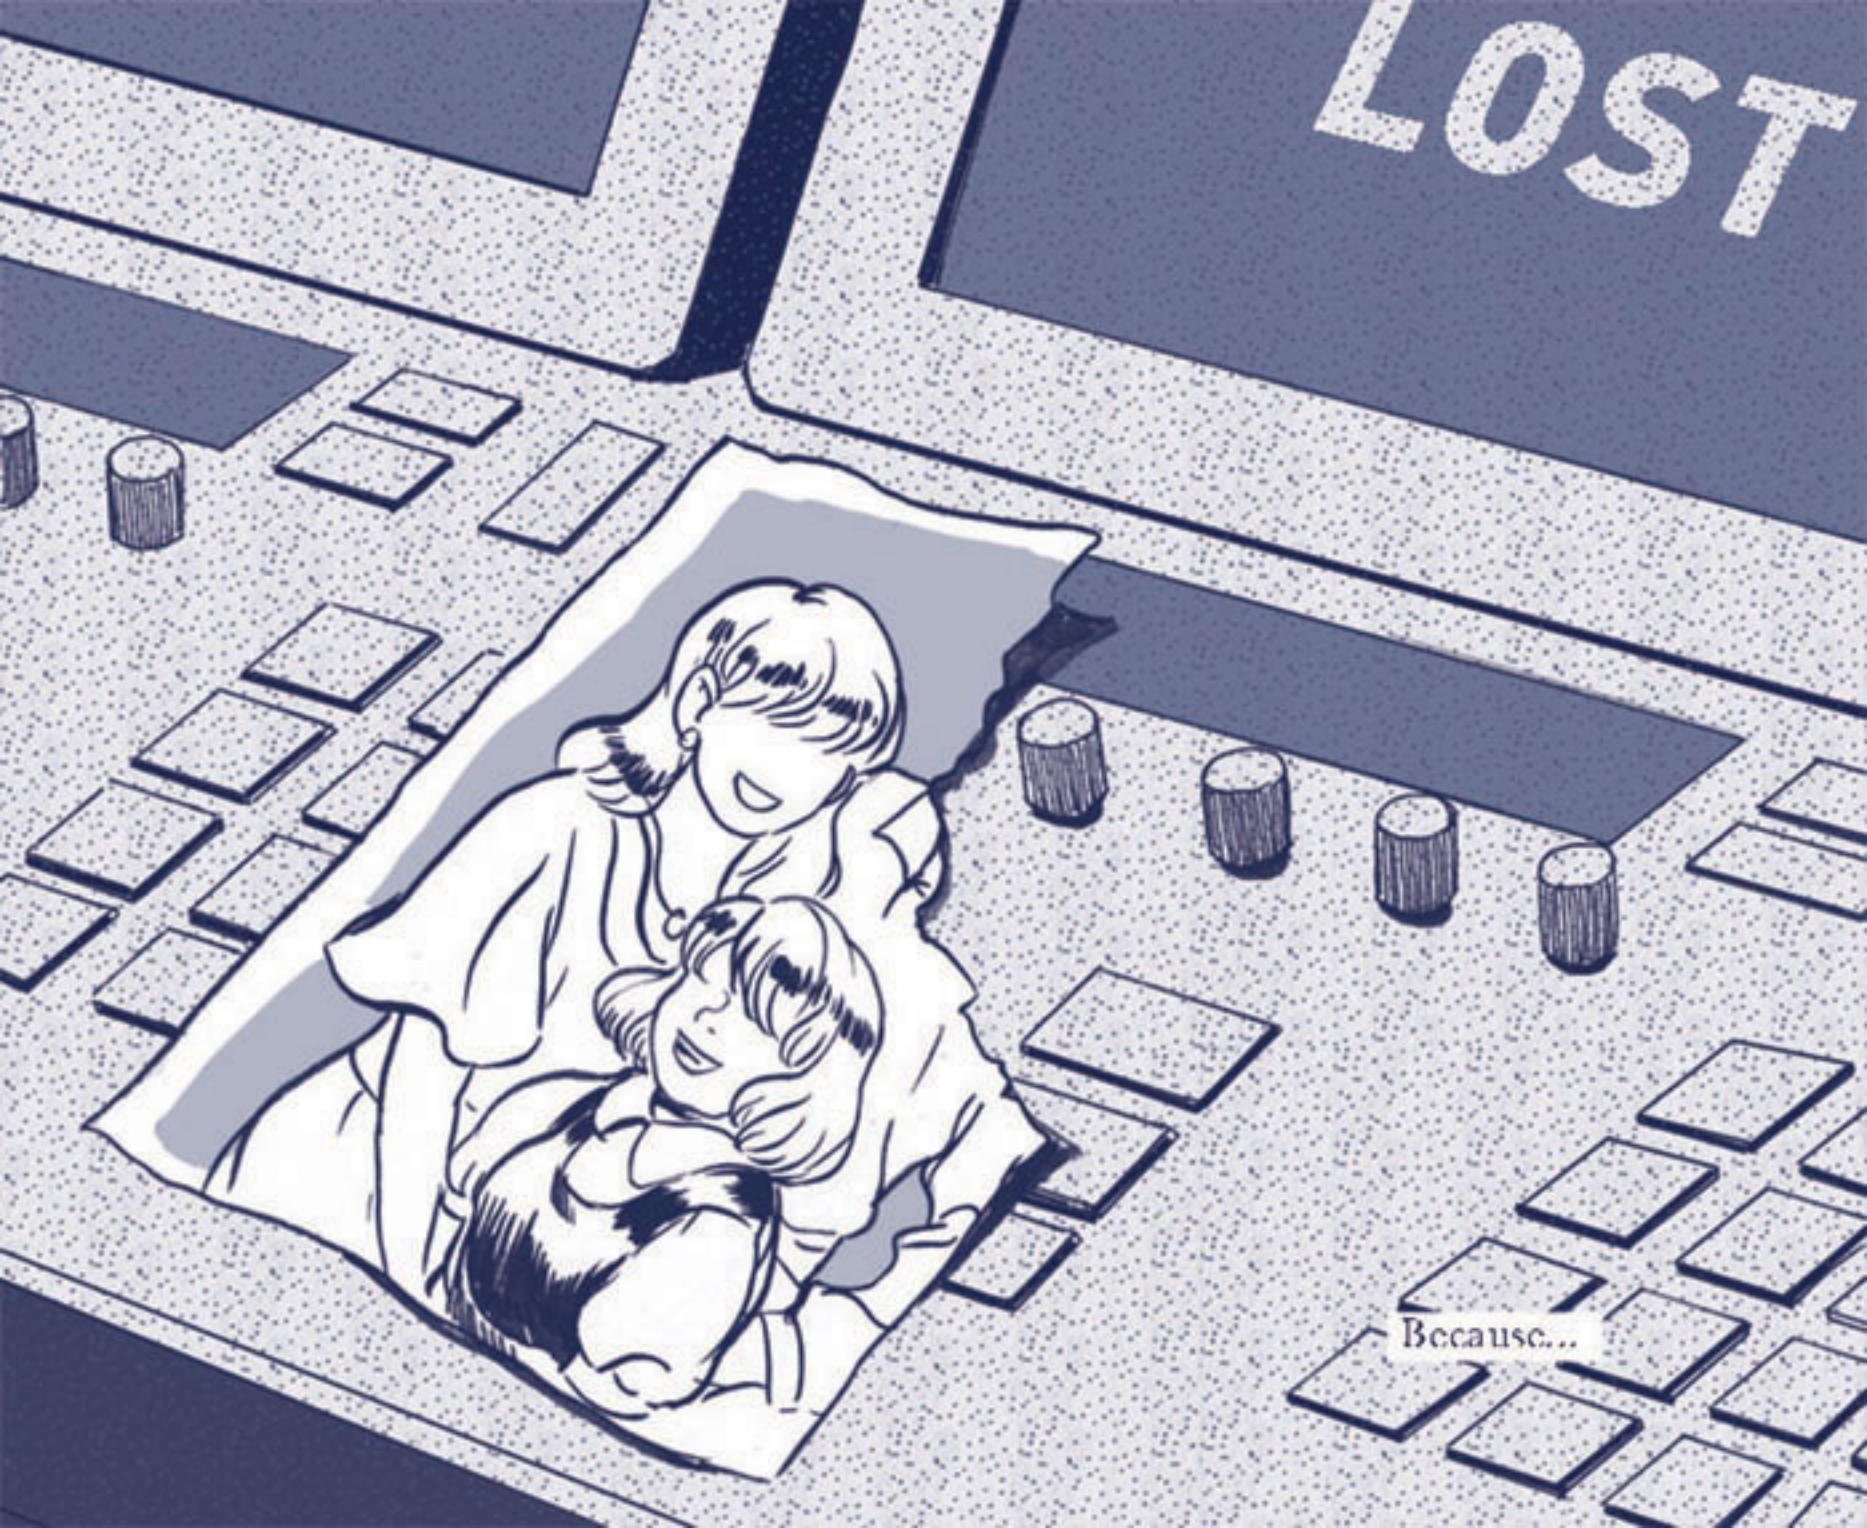
Then,
You will be different, successful, be an important person



You have forgotten how much time you have spent here
but they will



You will know, everying you did
has a meaning



LOST
Because...

CONNECTION LOST

Tomorrow, tomorrow,
They will be coming...

Tomorrow they will be coming...
